Executive Summary

The NCAA Minority Opportunities and Interests Committee's Study of the Ethnicity and Gender Demographics of NCAA® Member Institutions' Athletics Personnel

Introduction

The NCAA compiled the following statistical information regarding the ethnicity and gender demographic information of athletics administrators and coaches in intercollegiate athletics at its member institutions. The proceeding charts, graphs and tables show the results from the 2009-10 academic year. Also included in this report for comparison are the data from 1995-96, the first year the demographic information was collected. The 1995-96 data are used as the baseline year for comparison in each race demographics report.

Organization of the report

Data for this report are divided into three categories: athletics administrators, head coaches and assistant coaches. All three groups are then organized by overall figures, percentages and then a divisional breakdown. Included within each of these categories are tables that provide data with the historically black colleges and universities (HBCUs) excluded. For all overall and divisional categories, both with and without HBCUs, a specific minority breakdown for American Indian/Alaskan Native, Asians, Hispanics, Native Hawaiian/Pacific Islander, Other Minority and Two or More Races is also provided.

Changes to the report

In 1990, the NCAA began collecting annual demographic data on each member institution utilizing the NCAA Certification of Compliance Form. Each institution was required to return this form to the national office. In 1995, legislation was passed at the NCAA Convention that eliminated this requirement. The Institution Staff Demographic Form was developed to gather this vital information; however, completion of this form was voluntary. Therefore, starting in 1995, only a sample of the population is represented in the Biennial reports. Since the form on which the information is collected changed slightly and there was no longer a census, the MOIC decided to use the 1995 as baseline data and calculate the aggregate figures every other year to measure broad changes over time. The 1997-98, 1999-00, 2001-02, 2003-04 and the 2005-06 reports were all created from the Institution Staff Demographic Form.

The 2007-08 academic year marked another change in the way the gender, race and ethnicity data were collected. Similar to 1990, race and ethnicity data are required to be reported from the membership on official information forms. Therefore, all member schools are represented in this report and the collection is available annually.

Factors affecting the data

As with any data collection effort, there were minor errors and omissions in the data collection process. Data were evaluated on a school by school basis and every effort was made to ensure that corrections were made. Therefore, because of the high response rate and the low error rate, the reported percentages and frequencies can be considered good estimations of the actual administrators and coaches' gender and ethnicity data.

The gender, race and ethnicity for all coaching and administrative positions within the athletics department were reported for each school. Coaching staff includes both full- and part-time positions and volunteers. Individuals with multiple administrative or coaching duties are counted for each position. Therefore, the only totals that are included in this report are by position or by sport. Overall totals by gender, race and ethnicity are not included in any of the tables.

Suggestions for the reader

It is important to note that the statistics provided by the NCAA in this report are derived from self-reported data supplied by member institutions. No specific checks were made to verify the information provided by the institutions. While this information provides our best estimate of recent administrator and coach race and ethnicity, the data may not be absolutely precise.

Specific questions concerning the statistics included in this report should be directed to the NCAA research department or the public and media relations department at 317/917-6222.

Race and ethnicity category definitions

For the purposes of this report the following definitions were used for the race and ethnicity categories:

- American Indian/Alaskan Native – A person having origins in any of the original peoples of North America and who maintains cultural identification through tribal affiliation or community recognition.
- Asian – A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian Subcontinent. This includes people from China, Japan, Korea, the Philippine Islands, India, and Vietnam.
- Black, Non-Hispanic – A person having origins in any of the black racial groups of Africa (except those of Hispanic origin).
- Hispanic/Latino – A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race.
- White, Non-Hispanic – A person having origins in any of the original peoples of Europe, North Africa, or the Middle East (except those of Hispanic origin).
- Native Hawaiian/Pacific Islander – A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
- Two or More Races – A person having origins in more than one ethnicity category.
- Other – A person unable to identify with the other ethnicity categories.

Findings

Gender Findings

Overall, 56.8 percent of the athletics administrative positions reported by the membership are held by men and 43.2 percent are held by women. When observing leadership positions, the number of females in the positions of Director of Athletics, Associate Director of Athletics and Assistant Director of Athletics is 1,513 (30.4 percent) whereas in the base year of 1995-96, 661 (26.9 percent) of these positions were held by female.

This 2009-10 report shows that 60.5 percent of head coaches of women's teams were male while 39.5 percent of women's head coaches were female. In the base year, 56.4 percent of head coaches of women's teams were held by men and 43.6 percent of women's head coaches were female. Over time data for head coaches reveals that the number of female head coaches of men's teams has increased from 244 in 1995-96 to 332 in 2009-10 while the number of female head coaches of women's teams has increased from 3,116 to 3,882 since 1995-96.

This report also shows that 50.9 percent of assistant coaches of women's teams were male while 49.1 percent of women's assistant coaches were female. In the base year, 44.1 percent of assistant coaches of women's teams were male and 55.9 percent of women's assistant coaches were female. Assistant coaches' data reveal that the number of female head coaches of men's teams has increased from 613 in the base year to 1,850 while the number of female assistant coaches of women's teams has increased from 3,508 to 8,530 since 1995-96.

Race Findings

In 2009-10, the percentage of racial and ethnic minority administrators was 15.3 percent, an increase from 10.8 percent in the base year. The overall number of racial and ethnic minority administrators has increased from 1,530 in 1995-96 to 5,474 in 2009-10.

When observing leadership positions, the percentage of racial and ethnic minorities within these positions was 13.0 percent in 2009-10, an increase from 9.3 percent in the base year. The number of racial and ethnic minorities

in the leadership positions has increased from 229 to 648 since 1995-96. Within the position of Director of Athletics the number of racial and ethnic minorities has increased from 82 to 125 whereas the increase went from 60 to 251 for Associate Directors of Athletics and went from 87 to 272 for Assistant Directors of Athletics.

Racial and ethnic minority men saw the largest increases in the positions of intern, fund raiser/development manager, faculty athletics representative and promotions/marketing manager. Racial and ethnic minority women saw the largest increases in the positions of administrative assistant, academic advisor/counselor, business manager and compliance officer/coordinator.

White men saw the largest increases in the positions of associate or assistant director of sports information, ticket manager, associate director of athletics and facility manager. White women saw the largest increases in the positions of business manager, faculty athletics representative, administrative assistant, fund raiser/development manager and promotions/marketing manager.

Overall, the percentage of racial and ethnic minority men's head coaches was 13.1 percent in 2009-10, an increase from 9.8 percent in the base year. The percentage of racial and ethnic minority women's head coaches was 13.9 percent, an increase from 10.3 percent in the base year. Head coach data indicate that overall, racial and ethnic minority representation in both men's and women's teams has increased from 721 in 1995-96 to 1,131 in 2009-10 for racial and ethnic minority head coaches of men's teams and women's teams reported an increase from 736 to 1,367 for racial and ethnic minority head coaches.

Assistant coach data also reveals increases in minority representation for both men's and women's teams since 1995-96. Overall, the percentage of racial and ethnic minority men's assistant coaches was 21.5 percent in 2009-10, an increase from 18.1 percent in the base year. The percentage of racial and ethnic minority women's coaches was 19.0 percent an increase from 15.7 percent in the base year. The number of racial and ethnic minority assistant coaches increased from 1,820 to 4,643 on men's teams and from 985 to 3,299 on women's teams. It is important to note that almost every sport saw increases in the number of racial and ethnic minority head coaches and assistant coaches.
