

Senator Mike Gravel has been excluded from the Democratic debate October 30th at Drexel University. NBC cites that his campaign does not meet certain criteria, which CANNOT be met by others that ARE invited.

Gravel is unafraid to challenge his fellow candidates and addresses issues that no one else dares to. He keeps them honest and pushes the dialog. Last debate he was the only candidate to bring up the Kyl-Lieberman Amendment and steps toward war with Iran.

He is the fiercest critic of the Military-Industrial-Complex, and will cut military spending by \$250 billion. His plan to end the war would bring the troops home within 120 days. During Vietnam, he led a ONE MAN FILIBUSTER of the draft, forcing President Nixon to end it soon after. He also released the Pentagon Papers into the public record, showing that the Vietnam War was based on government lies and deception.

Where are leaders like this today?

If you are grateful that those dear to you have lived without the threat of being drafted to war, THANK Mike Gravel. He needs your support. He spearheaded an end to Vietnam, and will do the same with the war today.
