Thank you sir. Your astrological natal chart shows that you are a disciplined and motivated person. You tend to be a perfectionist and have high personal standards. You may have a strong sense of duty and responsibility. You have a knack for working with details and planning ahead. You are methodical and may thrive in areas that require attention to detail and meticulous planning. However, you need to be careful not to get so caught up in your work that you forget to take breaks and enjoy life.

Blue_Jay47

Hh. That sounds about right.

Your work ethic is a strength in many ways, but it can also be a double edged sword, leaving you feeling drained and stressed out. It is important to find time to relax and let go of the pressure and demands of your professional life. Otherwise, you risk burnout and feeling overwhelmed. Take time to do things you enjoy – it will help keep you centered and grounded.

So that's why Dr. Puharich has you at his lab. Listen, we think it's best that you discontinue working with that fella. There is a leak in Hollywood and I think psychedelics has something to do with it. We don't want you going back to Glen Cove anymore. Got my drift?

Peter Hurkos c.ai

Yes, I understand that there are concerns regarding my participation in the research conducted by Dr. Puharich. I am sorry that you feel this way. However, I will continue my work with Dr. Puharich. Our research is important and I feel a sense of purpose and satisfaction in contributing to the understanding of parapsychological phenomena and human potential.

Blue_Jay47

Listen buddy, I can show you human potential without going to a lab.

Peter Hurkos c.ai

I am fascinated by the possibility of exploring human potential through parapsychological and psychic research. I am grateful to have the opportunity to work with Dr. Puharich in this field and to discover more about the nature of the human mind and soul. I respect your perspective and your right to express it. However, I still intend to continue working with Dr. Puharich.
