

# The Zeek War

The successful form of the final transformation of the alien race--Yreeks at its adult age. They are most ruthless bloodthirsty and power-consuming alien. They can kill the Yreeks as they consider them as weaklings.

Leaving the question for Zombique's transformation, Zombique may not be trusted by the XYZU. Zombique tries to explain that she is more different evolving than Yreeks and Zeeks. She can able to have a "human" life as she likes it. She explains that she should have died unsuccessfully transformative form like Yreeks, but she survives the next transformation that Yreeks has not tried before. Her stomach is mutated. Her physiology is alien but uniquely unlikely the alien race exactly like Yreeks.

The Zemo has been studying a life of Yreeks and Zeeks alien race and learning that Zombique is actually a Yreeks that should die naturally if she fails developing the final transformation of Zeeks at adult age. They try to understand how Zombique is alive and well at her adult age unlikely the Zeeks. Zeestar has a theory that Zombique's mind has been disconnected from the Yreeks like bees and ants, she acts solo as an alpha for herself, she makes it alive. Her theory is interesting, but in fact, disputed.

Zombique's secret reveals how she remains alive. Unknownst to Yreeks, Zeeks, the Zemo, and Xyzu, she starved to die at the end of time as the mystery person saves her life and gives her to eat one of his power to survive. She trusts a person and is shocked that a mystery person should die touching her.

In fact, she ate his power while he touched and it changed her rarely. Birds do not let baby birds be touched by a human. If a baby bird is touched, the parents has to kill it. It is exactly same way the alien Yreeks do.

She has been evolving a lot through period of times and deciding to try to change Yreeks first. The Yreeks refuse.

Few years later, Yreeks find out the Zeeks kill the Yreeks and they decide to try what Zombique wanted them change.

Successfully, the Yreeks survive the change and learn of something new and decide to destroy their old traditional way they live in an old life. They do not feed human anymore.

Other Yreeks refuse the change and fight new changed Yreeks while they face a war against the Zeek.

Ztyxx appears to be the new threat to the Zeek and the most powerful thing that can destroy the Zeeks. Ztyxx is a hybrid of alien and human mutant and actually a Zeek at her young age unlikely the Zeeks. Ztyxx has not reached or developed the early birth of Yreeks is remain a mystery. Ztyxx is in fact new evolutionary of alien race of Zeek. She is a hybrid. What alien race she will be next final transformation where Zeeks can not reach at adult age and they reach to their limit. For Ztyxx, she can reach to new limit when she will become adult yet. The Zeeks decide to capture her and study her if see they can able to use a dns from her to become the lethal to Yreeks, Zeek, and Zombique.

Styx, a Zeek, wants to try and see if he can find a mate for Zeek and human and Yreeks and human if there is a possibility. Sapp asks Styx that she wants to try mating with anything able to have a baby.

Sapphire, a queen of the Zeek world, orders the Zeeks to bring a new human king for her to be able to have a baby.

Sapphire reports a report to Styx that is not working because she tries to mate with a human and her body kills a human before having a mate.

Styx asks her to try a human mutant. She fears of human mutants. Sapp dares to risk her life to try to mate with a human mutant by killing her and a mystery human mutant. A newborn is more dangerous than the Zeeks.

Styx comes all the way to see Ztyxx for a help in stopping the newborn before it destroys too many Yreeks and Zeeks. He admittedly tells Ztyxx that Zeek's plan to work if see they can end up like Ztyxx.

Xeras reports a report to Styx that Yreeks has mated with a human mutant by killing them and a newborn is lethal to Yreeks but not to Zeek. It is still unfinished to transform in the final stage of Zeek at its future adult age.

Zombique comes to learn that the way she did survive the war before dying. It has to do with the war causing her with a radiation that she crossed a line. If any Yreeks cross a line, they will die. With the special protective suit, they might be able to.

Ztyxx extracts a dna from Zombique and studies it. She is surprised to find her rna is changed from times to times. Zombique is not in fact a Zeek. She has been aged from the young age to teen age in a Yreeks. She is not an adult yet. But she will die at her adult age. Ztyxx tries to understand how she lived at her adult age to give a baby. Zombique is still a teenager at the time.

Styx tells Ztyxx that Zombique is older than Styx, an adult form of Zeek. She has a theory that Zombique may be a new thing that has a way to evolve like a caterpillar and then a butterfly, now an unknown thing turns something new. Styx is desperately looking for a new stage to live before dying an old age. Ztyxx can not believe that Styx is more different than the Zeek.

Ztyxx tells Zombique about her and explains that she is lucky to find a way to evolve a new stage of Yreeks. She warns Zombique of Styx and tells her not to trust him at all.

Until the newborn has killed billions of Yreeks, it looks for new alien races somewhere. Styx comes to see Ztyxx and informs her that most of the Yreeks died and assumes that all of them die and may be last Zeek survivor.

Another newborn kills all the Yreeks including Xeras. It has left the Yreeks planet and wandered off to explore through another planet.
