The first child was believed dead. Then Jaeger died during the Wars of the Birds. Jo appeared to fight against Vogue Boy and Vogue Girl.

Jaeger is seen by the Star Jaggers. Jaeger lead the Star Jaegers and overthrows the leader of the Star Daggers--Nitro.

Jaeger is also joining the Star Jaegers and talking to Zauren while she knows about Phoebe and Dani.

They face Michaela and Daniela McDaniel and Donna Nelson by battling w them.

They're also having a problem with Syjaru before she became Risa.

Sunglades has not met Jaeger and laeger at this time when she formed the Sunblacers. That explains that they joined their rank to see whether if Doan Hagen is alive or not.

As it seems that Doan Hagen is connected to Shirley Lennox, Josephine McGram, and Michaela McDaniel after the post Demolation. None of them are Demolation. They are next generation of the team of Demolation in which is not revealed.

Josephine Kline is the only one who breaks a boy out of the mystic seal in which she knows Yale or Yule Summers. She does not know Kathy Brooks.

### The Wars of the Birds

The wars between birds are all about the birds they should not take the names after dead or honors.

Jaeger is allied with someone through Vaux and Vesper in which they never met her while they are fighting each other during that war.

laeger is trying to eliminate Purple Martin, the one recognizes laeger and has no idea who she was.

Cardinal orders them to kill Jaeger, Jackdaw, and laeger immediately, but Junco kills Starling by reaching Cardinal before Pyrrhuloxia stops him. Jaeger shoots Nuthatch and Nutcracker before they back up Pyrrhuloxia. Pitta is angry to see Nightingale in sending Mockingbird to kill Jaeger, but Owl is interrupted by Mockingbird. Jaeger notices Owl that he is not one of us and nothing more like birds and suspects the Owl of his involvement with the race who once joined the Demolation.

The Owl and Mockingbird are killed by the Eagle, one of the Bird of Preys and tells them the Owl is not us and that Owl is joining his rank is not the Owl. Jaeger tries to find the body of Owl and is shocked by Mockingbird, the one is not dead as well. Jay wants to end Nightingale but is stopped by the Hummingbird. Lori demands an explanation why there are different wars between birds. Eagle tells Lori that Phoebe and Kookaburra caused the first war. Jaeger stops Eagle, telling Lori that they do not start a war and Wren did cause a war from the beginnings to the ends by causing birds a lot of wars. Eagle asks Jaeger, "Wren was old and you were younger; how can it be right for you when you were a baby to know a name in an ancient time?"

laeger backs up Jaeger by correcting the Wren is not the ancient Wren but all she know is Say. Eagle is surprised by that and asks if this is Say's cause. Lori apologizes about Say's problem and asks them to find Jay, the most wanted list for killing too many hatchlings. Jaeger thinks Jay

is Blue, but Lori reveals that Clark is Jay. Jaeger asks if Clark has been gone by the names before or after Clark becomes Jay. Lori says, "There are Jays but we know Clark is the Original Jay."

Jackdaw asks Lori, "What are we? What nations are we? Are we on water, land, sky, and air?" Lori says, "I've been hearing these issues from different birds for a reason to start a war."

Eagle asks Jaeger to address herself immediately as he address himself as he is Steller. Jaeger asks Steller, "Are you on a Jay's team? Steller is also a Jay. Lori says no he is not a Jay but there are only three Stellers in a bird group. Jaeger asks Lori to address the issue. Lori halts Jaeger and Jaeger before Jackdaw kills them instantly by hiding them in sight. Eagle asks Jackdaw who are they? Jaeger and Jaeger.

Lori says there is no Jaeger but Jaeger. So they are twins. Why kills them?

Jackdaw has a private meeting with Eagle and Lori. Lori is not sure yet to think about it but she needs to talk with Lori. Eagle asks Jackdaw if he knows anything about four girls. He says not really but he fears of the Phoenix. Eagle says Phoenix is no a threat. He is confused by that and asks Eagle who are we talking about? Same one or different ones? Lori hears that and asks them to come and see a Phoenix in her place.

Seeing a Phoenix, Eagle and Jackdaw are shocked to see another Phoenix and tells Lori that is not a Phoenix. Phoenix asks them if this is all a war about Phoenix and thinks again about birds.

Eagle says Phoenix is a bird of prey among us. Jackdaw says there is a Phoenix. Lori says Phoenix is a paradise of bird. Phoenix tells them there are issues about Phoenix. The one who will take the name only if the one beats all.

(Prion is seemingly predestined to be a Phoenix and the one beats them all)

(This Phoenix of the Bird of Paradise explains what happened to the war between the Bird of Paradies until the Avarian Wars. It is assumed that Prion kills the Phoenix of the Bird of Paradise because Prion does not allow anyone to use a name of Phoenix and needs the real Phoenix yet.)

(Bobolinks received the powers from the Royal Bird of Paradise in a paradise in which reveals that they practices the power of the Phoenix or what's left of the power in which could be supernatural or magical. She uses the trek power by trying to end the bird power in which fears the Royal Bird the most about the changes in the future would have caused the end of Phoenix in her future trek. Bobolinks assures that Royal Bird of Paradise that she has no control over the future and asks it why makes her lose bird powers. It is not sure. It tells her whatever she did, it affects the bird powers and it makes it fear for its generations. She is surprised by that and asks if this is true and why chooses her? It tells her to ask the right thing that question and it is only

protecting the powers and warning people of it. She decides to end the conversation and terminates the contract in which protects her from what comes her around and the dangers.)

[Lori Keets aka Lori nothing more than a secret citizen of the Bird of Paradise palace who knows a Phoenix and opposes the Bobolinks (not Robin)]

[Baldwin Steller aka Eagle is secretly a Griffin who protects a true Phoenix from being exposed by those who wanted to find a true Phoenix. He is a part of the Phoenix in a conflict of Cockatrice, Rooster, Griffin, Roc, and Phoenix in a force. He becomes a threat because of he is an Eagle. He keeps Eagle alive and legend forever. He does not know Lori as well because he is older than Lori. He respects Lori because of the Phoenix tells him not to hurt Lori.)

The Phoenix feels threatened by Jaeger and laeger as it thinks they are somehow connected to its past. Phoenix knew they spoke of Phoebe but they knew a lot about Wren in which they should not have known.
