

# MAGIC WAR

A war is between a queen of Mystic Domain and her soldiers, the rebels of the sacred magic land and their alliances--Calibre, Zemo, and Shadow of Arc.

A queen of the Mystic Domain, Mystic Queen, declares a war on the Zemo and those rebels who opposes the queen of magic land.

-When a queen destroys the lands and wounds the Zemo really bad. She asks whether the Zemo left or die here and also adds the Zemo must be disbanded immediately if she wins the battle against the Zemo.

-The Zemo faces their near death and loses the battle against a queen.

-Crystal warns a queen of what a queen would become of more darkness and evil than she has. She disagrees with a queen and tells her that is not the way. Something goes wrong when Copycat risks her life to sacrifice to become a queen of the Shadow Realm by declaring a war on a queen of the Mystic Domain. A queen of the Mystic Domain tells Copycat that she creates those from mystical powers and throws them away and thinks they are incomplete and are supposed to die. Copycat tells a queen that she gives the darkness source inside of mysterious mystical force hers.

-The Fallen Mystic Domain is falling down all the way from the above into pieces.

Queen Mystic tells the Zemo that there are a lot of things can destroy us and the Earth and loses her mind completely.

-Agent Ykarcena Chelley has been dealing with her pain and life all her life and faces a new life of herself as an agent. She is everyone's the most wanted and must be eliminated before the Zemo finds out why.

-Hot Black Orchids Agent shoots Agent Ykarcena Chelley on same team as she thinks Agent Chelley must be eliminated on the most wanted list. As a result, she does not kill Agent Chelley. She wants Agent Chelley to be ready to think fast before any agency would have killed you instantly exactly like she just did. Agent Chelley feels the stun for the first time in her whole life.

-The Higher Councils of the Secret Magic World wants all the list of Chelley family dead for failing to protect the Mystic Domain. Crystal addresses as the judge and is chosen by the Higher Council, but is announced no longer a judge by them. They give Crystal a sentence to serve as one of these magic people and they do not eliminate her. A deal they give Crystal to clear a sentence is finding Ykarcena Chelley. If not they will erase Crystal's memory and give her a freedom.

-Clearly, Crystal refuses in accepting both, fights some underclasses of the Higher Council, and flees. The Higher Council meets with a Demon Empress to find Crystal and erase her mind. She needs something and they accept it. She gets the Phoenix

Pinions by capturing Crystal and erasing her. Before that, she has a crystal shard and wants to kill Crystal, but saves the part when she finishes the deal with them.

-The Zemo informs Crystal's family and friends that she is amnesiac or mentally erased permanently by unknown. This upsets an agent Chelley so much. Krystatos threatens agent Chelley by telling her it's on your hand and you will be dead after we are done with our squads.

-Agent Chelley tells everyone in the squads of the Zemo that she will go to the Higher Council for once and all. After that she survives the Strangers Wars, she left the Zemo squads and went to Higher Council.

-In the Prudent Zemo issues, Brandy, Lyzu, and Strix are on the way to find Ykarcena Chelley before she meets the Higher Council. Kea is addressed as the judge to change a law by upsetting the Higher Council and warns them this is a judge speaking. The Higher Council tells her to stand down the judge and inform her that there are several judges. She is arrested by the High Council, but Witzer frees her.

-Kea says that is absurd. She tells the Zemo that they are up to no good and they do not even arrest Crystal. Krystatos tells Kea that Crystal is needed but now Crystal is mind-erased.

-Krystal is one of those who supported against Ykarcena Chelley, finds out Crystal is mind-erased by them, changes her position not to support it. She warns the land of magics that those are not magic people in the higher council as she suspects. She asks everyone that we all lost our magic and some died from a loss of magic. She asks everyone to think why they want Crystal mentally erased and Mystic Queen and her Mystical Royal Family dead because they are anti-mystical beings that might be the ones who destroy us all.

-Psi sacrificed her telepathy to Crystal as she hoped this would help Crystal remember anything. She can read any blank in Crystal's mind. She tried her telepathy to make her remember or give her a new memory in which is not workable. She had no choice in needing Crystal as her back up to keep her life. Crystal received a telepathy by learning that Demon Empress erased Crystal's mind and stole a crystal shard from her. She needed to restore the erase and restore her mind back to normal yet. She can have a telepathy but it will not help her remember the whole thing. Krystatos is upset by Crystal and forgotten by her in a despite of their long term marriage.
