

The Wars-The Conflict of Interests between US government agency and other agencies

The US Government has done a lot of dirty jobs by making the agencies believe that they would take the Zemo down.

The US Government has discovered that A-Men is exposed and shutting the program down while they thought the leader is telling them that he can handle it under the circumstance. But the A-Men is shutting the program down immediately as they decide to disband the A-Men if necessary. Where is the leader the whole time? No one has seen or heard from him.

The US Government asks the LETTA about the recent research on something and wants them to finish the objects but they are not responding to the US Government. The US Government orders the secret agency to check if they are not betraying them and gives them an order to kill them even if they hid the objects.

US Government learns the existence of the mystery agency in which is called the O.E.A.U.I. and asks any agencies about the OEAUI. They orders all the agencies to capture the OEAUI if see they can talk to them about this program. However, Void has successfully transported from computer at her office to US Government. Void gives all the computers the deadly virus and transfer all the files to the Pentagon in which is considered as a leak or blackmail. Void practically controls the computer system in giving all the agencies all the informations about what US government did to them all. US government is fully exposed and shamed by Void, the one wonders what hits the president to see a thing like that. US government talks to a president how dangerous OEAUI is and hopes the president orders the black covert op to hunt the OEAUI.

The X.Y.Z.U. has left the Earth fighting the deadly alien race while US government seized the XYZU's headquarters. But they can not able to access. They tried the best they could make it able to access. Nothing works. Somehow, the program appears to launch a self destructive bomb inside of the headquarters in a lockdown. The US government can not able to get out and make it to access.

The Yeomen is the most successfully resourceful agency who makes a lot of reports and solid evidences of seen dossiers and videos of US government's deep secrets. This lady is fearless leader who wants to destroy the US government and ruin the us government's reputation. A male agent named Kelly, the president sends him to investigate who the mystery lady is and orders him to capture her alive, finds her and tries to capture her while US government bombed her van and thought they killed her instead of killing an agent Kelly.

The Top Secret Special Organization is well secured from the president trying to shut it down. The president labels it as illegal outlaw government agency and wants it destroyed. However, Top Secret Agency threatened the president by addressing him that he signed the bill and

passed it for letting the program starts. US government fears of T.S.A. in their long rivalry history.

The Xylumen is formed as the president orders T.S.S.O. to stop creating any agency branch and learns that they do not. The president orders the US government to create its a secret agency to destroy the Xylumen and keep it secret. Seemingly, it does not work for the president. US government labels it as a terrorists on public news by confusing and upsetting the Xylumen so much.

The Zemo is being threatened by the president in which is called the monsters. Zeia has been trying to contact with the president and the president refuses to take a call or talk to the Zemo. The president declares the Zemo as dangerous monsters and aliens needing to be destroyed by anyone for 1 billion dollars.

Organizationaire protects the Zemo from the president wanting the Zemo destroyed. They have been working as double agents while they are working for the US government. They made the new bill without the president knowing about it and sent it to the Congress.

The Zation is the most mysterious group who made everything easy and took the US government down one by one and started a new US government installment program that a president disliked the most about and is stuck with them.
