

## The Polisirton Family

Cedric Deon aka King Theophilus is married to who

King Thesaurus is married to Cardinal by possibly having two kids--Myk and Zitron? Cecil Harvey Polisirton aka Soil may be a connection to a Terra Force.

The mystery wives of Polisirton in the list:

1. Charity Sharlene O'Haram may be a wife of King Theophilus
2. Valerie Abilene Ngilu may be married to be a brother of Thesaurus and a son of Theophilus.
3. Abigail Minnie Opara
4. Coscoroba Jamalia Coscoroba
5. Miranda Raymonda Rahmer
6. Elisabeth Lexie Zisengwe
7. Shay Nella Nelda

Possible cousins; siblings of Polisirton in the list:

1. Cecilia Tanya (could be a sister of Thesaurus) aka Zwaan
2. Celine Dionne aka Swan II
3. Cyprus Malcolm aka Schwan
4. Cyril Paul aka Black Swan
5. Cyprus DeAngelo aka Cygnet
6. Cybil Petunia aka Pink Swan
7. Charvey Laurence aka Cygnus
8. Charley Lawrence aka Svan
9. Cedrick Michel aka Cob

Notes:

- Cedrick Michel is possibly a brother of King Theophilus and possibly a husband of Penelope. Cob and Pen.
- Cedric Deon might be married to Tulsa Rose as if that sets itself right in a case.

TERRA FORCE is a team between two leaders fighting over the leadership position of the team.

GEO FORCE is a team is consisting of Hot Rod, Ghent, Zauren. Seemingly, Terra has left Geo Force.

Terra Firma, a Earth destroyer or destroyer of Earth or Earth destructor, is known as the Paradox in a nick of time of a paradox somewhere in the trapped future power of Taffy. Questioning this: Who is Paradox?

Parallax  
 Parallox  
 Parallelex

Paradox and Parrallex is Tulsa Rose  
 Paradox II may be Tulane Rose  
 Parallox?  
 Parallax

Notes: Tulsa Rose, formerly public known as Terra Firma to Evilyzer and the Zemo. Terra may be Tulsa Rose of The Geo Force and Terra Force.

When Terra Firma and Taffy are trapped inside of Taffy's powers in which contains the future everywhere. A timebomb ticks off and is stopped by a future power of Taffy. A timebomb may cause an explosion inside of the future by blowing Terra Firma in a time paradox. Whatever the lines in a paradox of times from the future has altered from Terra Firma to Paradox to Parallelex. Parallox makes himself an existence of the future in which Paradox lands on the parallal lines of a time paradox of the future in a courtesy of Taffy.

Before Terra Firma disappeared along Taffy, Theo has been warning her of must make a choice right and wisely and not touching her son until her son touches her as she would know when time is right. Paradox is an entity of complex time that takes a place of Tulsa Rose.

In the past of her life, she has a very first codename--Terra to form a team in which is called the Terra Force. Geode is there at this time. Not sure about the age of Tulsa Rose. She used her codename Terra Force in having a crush on Geo-Force.

Tulsa Rose is well known as a "sister" of Geo-Force. He breaks up with Tulsa Rose and is blackmailing by Geode. They separate each other. He fakes his death by breaking Tulsa Rose's heart in an order to destroy the Zemo as she was Terra Firma.

What happened to Tula in this time? Tulane Rose is given an answer in which Tula is a fourth codename of Tulsa Rose. He is Tule.

Tulsa Rose is a director and agent of the Death Orchids Agent of Death Black Orchids Agent and Black Orchids Agent in which is third codename.

Parallex

Hot Black Orchids Agent is a sister of Mexi (age between 30 to 40)

Soil and Cardinal (probably 30 to 40)

King Thesaurus (Soil)-30s

King Theophilus (50s)

Tulsa Rose can not marry King Theophilus in a despite of what a King Theophilus wanted Cardinal and Terra when he is Geode. It made sense in which Geode tries to wrestle with Geo Force by severing the friendship between Soil and Geo-Force, messing up a relationship between Tulsa Rose and Geo-Force.

Tulane Rose is a key to Tulsa Rose and an unknown father. He plays the important role in the future yet to come when Theo is ready.

Noticing these things strangely, Geo-Force may be a King Theophilus as if this may seem so obvious. But Geode may have changed from Geode to Geo-Force. Soil may be Geo-Force as well. This is a huge problem.

Geo is the first codename before Geo Force and Geo-Force.

Geophys.

Timekeepers has dealt with Geo.

The question is why has Geode and Geo-Force in different team while King Theophilus hides in a place?

Obviously. King Theophilus is a metamorphic rock and earth type as well. Look at Thesaurus--Red Clay, Soil, King Thesaureus (those names fits his fathers names in an order of times)

Geo may be a member of the Demolition and faces one of the Destroyers.

Who the hell is a queen? No one has heard anything about her and seen her. Tulsa Rose carries a baby in which Theo knows who the father is.

Geo-Force vs. King Theophilus is an amazingly tricky battle in which does not seem right. Geo-Force has an ability to create any rocks and Earth by causing an earthquake and King Theophilus seemingly shows how strong he is while he walks loudly with his feet on the Earth by cracking, trumping, making a mini-earthquake. Similar or same things they display the powers.

Geo Force vs. Geode

Geo-Force vs. Geophys

He is not seen by the Zemo the whole time while he is befriending his friends--Hot Rod and Ghent, the ones has father issues that he can understand beyond. He does realize that is his mistake to do that to his son and learns something from them.

He makes Tulsa Rose believe that Geo-Force is dead. He is upset by her death.

Who is Parallox?

A mystery son of Parallelex? Paradox and Parallox is Tulane Rose. Seemingly, she removes the last name and learns that Geo Force and Theophilus may be same person and a wife of Theophilus just appears as if that is her.

Taffy and Tulsa Rose's ages are different. Taffy is younger than Tulsa as Soil is older than Taffy, but Tulsa Rose is older than Soil.

Zeia is very much older than Tulsa Rose in which makes sense. Litz's age is almost and nearly Zeia but Zeia's age is as same as Litz's mother.

The ages

Ambassador Kelly Jacobs meet a young alien girl Zeia. She and Zeia are not connected to the Demolation.

The Demolation is very ancient team of old ages. Sunblazes and Sunflames are older than Zeia and Kelly.

Gazette. Chet. Chez. Early Bird. Sunblazes. Mule. Snake.

Surprisingly, Snake is a sister of Litz.

Who is the first child of Kelly and a father? Meaghan, Susannah, or Michelle?

Meaghan is married to a doctor Clark Martin. She is eldest child of three girl children. Susannah is second. Michelle is the last child.

Kelly is older than Zeia? Demolation is the first generation. Zeia is one, of these Terras in which takes a place in which a Mystic Queen destroys the Terras.

Quarrior is the oldest of all as Quent and Quint joins the Demolation as they are older than Lem.

The question raises that Queen Mystic destroys the future by causing Zeia to age young as a child to the future.

Queen Mystic is very much older than Zeia and Lem. Her age is same as Quint and Quent. They are older than Susannah. She is older than Zeia.

Comparing with Sunny and Hot Pink, same pupils of Michelle and Zeia. Zeia is older than Michelle.

Look at Finafty and Galax, Galax is older than Finafty.

The right ages of youngs--Hot Pink, Sunny, Xenon, Ghent, Hot Rod, Zauren.

Solara is the eldest just like Yogalarus.

Strong Man is older than Sunny, but Solara is older than Strong Man.

Espio is still young just like Zequel but Xenon is older than Espio.

Cleodrina is the youngest, Jolie is the youngest, and Sunglades is youngest.

Aluta, Lyzu, Iona, and Cleodrina are teachers of the Xiamen. Obviously a queen tries to attempt to have a baby for years since Demolation. Jolie and Sunglades are older than them and not been in the Xiamen.

Cyst IV is the youngest member of the Zemo. Iona may be the second youngest member of the Zemo. Aluta may be the third youngest member of the Zemo.

Quarrior is the oldest member of the Zemo. Gen and Malady might be next. Gondeon may be around the ages due to an object that the Gods created to kill all the Gods and Titans. Gondeon may be older than Quarrior.
