

Episode 8: Taking Control

New Camp Cretaceous Intro

Testing Facility 2

Security Guard 8: What the heck happened here

Security Guard 7: It looks like something escaped

Security Guard 9: Well obviously

Security Guard 7: What does it look like

Security Guard 9: I'd say SRX-004. Could possibly SCH-002 or 3

Security Guard 8: Well we have to tell the boss now!

Desert

Darius: Do you see any tunnels?

Yasmina: There's one up ahead somewhere, wait is that that ridge on the map

Darius: How am I supposed to see?

Darius takes the map

Darius: Yep

Gives the map back

Yasmina: So just ahead there should be a four tires icon, and a tunnel should open up near

Overview as the car pulls up to the icon, and the ground opens up extra slowly

Darius: Well that was easier than expected

Ben and Sammy's car

Sammy: Ben! So tell me more about what your parents were saying about Phantom?

Ben points to a half eaten carob bar, then his mouth

Swallows

Ben: Well, I hear it alot, and my mother says "What do we do?" do my dad alot. I mean yes my dad is an engineer and my mom is an ex CIA agent... but what the heck could they need them for?
Sammy: Oh.

Alan and Brooklyn's car

Alan: So... what exactly do you think we're gonna find at the aviary?
Brooklyn: Don't ask me, wasn't my idea?
Alan: I sure hope that there's some undocumented species!
Brooklyn: Great (*Smug look*)

All of the trucks entering the tunnel

HQ

Daniel: Come In

Samuel opens the door

Daniel: Hello Samuel, let me guess, you missed these rats again?
Samuel: Actually yes... we've lost them, but some-
Daniel: Then what are you doing here, go find them!
Samuel: That's not what I'm here about si-
Daniel: Get Out!
Samuel: The Scorpios Rex Escaped
Daniel: And you're just telling me this now? We have to get this thing back into containment like yesterday. The last thing we need is for it to climb into the Indoraptor exhibit or board one of the boats
Samuel: Sir?
Daniel: What?
Samuel: Is it just me that sees the desert lifting into the air?

On the Desk

Daniel: Okay so they're in the central tunnel
Samuel: So... what does that mean
Daniel: They're going to one of two places
Samuel: Which are?
Daniel: The Aviary, or here
Daniel: Send all of the troops to the aviary, there's no way they'd head straight to us.

In the Central Tunnel

Darius: I'm still not convinced that this is a good idea, whatsoever, its a bad, bad, bad, bad idea

Yasmina: Well who are you complaining to, it wasn't mine, so turn that frown upside down

Darius: Whatever

Camera zooms ahead a mile ahead in the tunnel, right before it turns, and something stomps its foot

Alan: Hey Brooklyn? Did I ever tell you about some of the stuff your grandfather did?

Brooklyn: No, not that I can recollect.

Alan: He contacted me at some point in 2008, and said he wanted to chat, and he invited me to Jurassic Kingdom, and wanted me to sponsor. Only when I saw all the shady things he did did I back out

Brooklyn: Unsurprising of Grandpa

Ben: Sammy, calm down, there are no vampires at the end of the tunnel

Sammy: But how do you know, you can't see at the end

Ben: You have a point,

*The campers pass by the northwest entrance to the aviary, and head to the **South-west**, the Altispinax comes out of the shadows and chases them*

Darius: I thought we lost this thing a while ago!

Alan: Well this never gets old

Brooklyn: Alan! Throw a flare to distract it

Alan throws a flare, for the Altispinax to have it hit itself, and then land on the floor, the altispinax bites down on it

The campers outrun the Altispinax

Samuel: Daniel, sir, I don't see the kids, and we've been here for ages

Daniel: Keep waiting, they've ought to sho-

A creature roars

Daniel: What was that

Samuel: I think we'll find out

The Altispinax breaks through the steel doors at the bottom of the tunnel, and flips open the entrance

Samuel and Daniel run from the Altispinax, to a ladder in the scaffolding

Samuel: Go first, please, it's not like my life matters or anything

Daniel climbs, and so does Samuel, and the Altispinax rips its jaws onto the Ladder, unable to grab onto samuel, Samuel, weasels his way out of its mouth, and back up onto the scaffolding as it destroys the ladder, and pain shoots through its mouth, unaware of where Daniel and Samuel have gone

Daniel: Close one

Samuel shoots Daniel a dirty look

Tunnel

The campers park their cars in an underground lot, and take an elevator up to the observatory

The campers open up into the observatory, with podiums, and a nearly ready to go café in a dome

Darius: This is... incredible! This place, has, everything an aviary could have

Darius: Anurognathus, Pterodactylus, Pteranodon, Dimorphodon, Tapejara, and a few infant Quetzalcoatlus'!

Ben: How could anything go wrong... (As a camouflaged Scorpions Rex mounts the observation tower...)

Alan: See anything else Darius?

Darius: Not really, but it doesn't look like these things like coming close to the tower, must make it hard to observe them whenever-

The Scorpions Rex Screeches, and pierces the glass with its finger

Yasmina: Oh no...

Ben: Sammy, call an elevator NOW!

Sammy quickly pushes the button to call an elevator, with it being stuck at the train station

Yasmina: Come on there's got to be another way down

The scorpions rex grabs onto a pole, and slips, but gets back up, and climbs into the building, grabbing a chair in its way, and throwing it out of the observatory, it roars.

Northwest Post

Daniel: Do you hear that? (right after Scorpions Rex roars)

Samuel: Hear what?

Daniel: Give it a minute...

(Roars again)

Daniel: Hear **That** one?

Samuel: Well obviously, what creature's that one?

Daniel: Given the metall-

Samuel: Oh no... it's the Scorpions. How did it even get in?

Several Anurognathus fly out of the aviary, as Daniel and Samuel enter the northwest post

Southwest Observatory

Alan: Don't Move A Muscle

*The scorpions reaches upwards, and roars at Alan
Elevator dings!*

Darius: Go

All run towards the elevator,

Yasmina: Come on, close, close, close!

*The door closes on the Scorpions rex's hand, as it pulls the door forwards, Darius throws a flare out of the observatory, and the Scorpions follows
Elevator music as it descends to the cars*

Northwest post

Anurognathus' banging against the post, and then stop, Daniel opens the door

Daniel: Well, what are you waiting for? Get in the car!

Daniel descends the ladder, and Samuel presses a button, and then descends

Daniel Runs to the jeep, and Samuel hops in, they head to the tunnel

Southwest Observatory

The campers get in the three jeeps, and make their way down the tunnel... only to see a closed gate, and someone slow clapping

Daniel emerges

Daniel: You really thought that you could escape me, after all of this time, how did you never realize that it wouldn't work, we've finally got you, now if you wouldn't mind following me

Enters the car, and several guards force the campers in

Daniel drives to the southwest observatory, and they all take the elevator up to the train station

They all board the train silently

Daniel: Good luck escaping! This one here's a straight shot from HQ to the aviary, you're not making it out.

The camera pans above the ground as the Metro AI says "Next Station, HQ"

The Albino Scorpions Rex's foot touches onto the ground..

Daniel: In case some of you haven't been Fully introduced yet, I'm

Daniel Kon, CEO of PhasoTech, and yes, some of you may know my son

Darius: We know who you are skip the intro and get to the chase

Daniel: At PhasoTech, we strive to create a harmonious sanctuary for many creatures that couldn't be placed in th... elsewhere. We have fourteen documented species here, including two hybrids

Ben: Then what's your facility in San Francisco there for

Daniel: All will be revealed in due time, but now isn't that time..

Daniel: Show Cargo Routes

PhasoTech AI: Showing Tier One Cargo Routes

Daniel: As you can see here, we have exports all over the world, to San Francisco, Los Angeles, Rome, Beijing, Tokyo, Manila, Karachi, and more

Daniel: We also have some more... confidential, locations, which we're not exactly ready to share to you, and the world yet

Scorpions Roars

Daniel, don't mind that, ACU is currently taking care of this one, you're all safe, and definitely not getting another shot to get out of here!

Alan: *(mutters)* It's not like any of us asked

Daniel: What was that?

Ben: So what are the other routes?

Daniel: What?

Ben: What are the other routes? It's a simple question.

Daniel: I'm not so sure that that wouldn't turn out well

Ben: It's not like we'll be making it out of here any time soon, the last plane just flew over.

Daniel: So last chance, are you **SURE** that you want to know?

All the campers nod in agreement

Daniel: Well in that case, Show Cargo Route J 7 E 6 P 2 L

PhasoTech AI: Showing Tier 4 Cargo Route, J 7 E 6 P 2 L or J 7 E 6 P 1 L?

Daniel:L J 7 E 6 P 2 L

PhasoTech AI: Tier 4 Cargo Route J 7 E 6 P 2 L

PhasoTech AI: Stop **TWO**: Lima, Peru, PhasoTech Operatives in Lima, Peru attempt to purchase dinosaurs of the black market for some of its major facilities globally.

PhasoTech AI: Stop **THREE**: Guayaquil, Ecuador. Guayaquil, similar to Lima, has a rich black market section in the city, and many exports are sent all over the west coast of South, North, and Latin America, sometimes even the Caribbean through the Panama Canal

PhasoTech AI: Stop **FOUR**: Facility 4: Parque Nacional Natural Utría, Colombia. One of PhasoTech's most developed facilities, seven species are present here, and the facility is set to open on December 2, 2022.

PhasoTech AI: Stop **FIVE** Facility 7-

Daniel: Stop

Daniel: You may be intrigued by this one, but I can explain it thoroughly

Daniel: Show Route, Cargo J 7 E 6 P 2 L

PhasoTech AI: Showing Route, Cargo J 7 E 6 P 2 L

Showing the line across from Chile to Lima

PhasoTech AI: Two Boats

Showing the line across from Lima to Guayaquil

PhasoTech AI: One Boat

Showing the line across from Lima to Colombia

PhasoTech AI: Three boats

Daniel: Zoom Cargo Line Columbia to Facility 7

PhasoTech AI: Zooming and Decelerating Columbia to Facility 7

Daniel: Just you wait

Daniel: Mute

Showing the line from Columbia, across water to somewhere west of Costa Rica

The Line zooms the closer it gets

A Plume of smoke appears, and the camera passes through, only to see a recognizable island, with a volcano dotting over the coast

Daniel: Location Facility 7

PhasoTech AI: Facility 7: 7°16'37.2"N 85°43'41.6"W, Isla Nublar

The Campers Shriek!

Credits Roll

Post Credit Scene

The Projection from PhasoTech becomes the real location, and zooms onto the PhasoTech docks, where it enters a tunnel, then a vent, which sends it to a lab, with a computer screen saying "Asset out of containment, evacuate immediately", for a massive claw to enter the frame, pierce the screen, and let out a deafening roar
