

UNIT SUBMITTING REPORT // 1st Long Range Recon Scouts - Gek Wide  
Patrol //

COMMANDER // Administrator Keehar //

BRIEF SUMMARY OF UNIT ACTIVITY // Returning from long range scouting  
in Usbarak Instability for resupply of tacos and debrief after 2 week  
recon //

ENEMY ACTIVITY OBSERVED // Observed possible hostile incursion while  
refueling after reaching corporate territory / Capital Freighter  
discovered with unknown markings / Korvax system, unable to determine  
if invited or invading, no response from local station / Immediately  
engaged radio silence per directive 33.A.1 / Freighter observed  
offloading multiple hauler class dropships / Dropships observed to be  
en route to same planetary location / Long range optical scans show  
construction of base, military style layout / Spotter BigWig reports  
Recreation Facilities appear to be ready for use already, rest of base  
barely started / Heavy weapons and anti-ship munitions crates unloaded  
but not yet assembled / Commissary partially functional, possibly  
serving tacos based on marking of foodstuff crates / Strong fighter  
escort on short range patrol, Vy'Keen and Exotic models detailed in  
attached visuals / Intercepted communications, unable to break  
encryption / Wide patrol was able to warp from system before discovery  
/ Intercepted communications and IFF transponder signals included in  
report as attachment / Please advise / Commander's additional - Comms  
Officer Radar has already been disciplined for adding irrelevant  
information regarding food supplies per directive 1112.F.11//
