WARNING

THIS DOCUMENT CONTAINS SENSITIVE CONTENTS - VIEWER DISCRETION IS ADVISED

The personal and commercially sensitive information contained in the original copy of this document has been removed to protect Pathos' commercial interests and respect the privacy of the victims. Neither Pathos nor the Service will ever condone or permit the disclosure of private information.

The Internal Security Service considers it vital that:

- in the interests of transparency, the public and Pathos community are made aware of the justification for actions taken against several high-profile individuals; and
- the public and Pathos community are able to avoid these individuals in the interests of their own safety and welfare.

Section VII - Recommended Course of Action.....	10
Section VIII - Conclusion.....	12
Appendix I - Table of Exhibits.....	13

Section I - Introduction

1. “*Flowerfreak Council Oml4*”, colloquially known as “*Mayflower Compact*” (the “**Mayflower Server**”), is a Discord server hosting several members of the Ethics Committee, Department of Diplomatic Affairs, Scientific Department, Anomaly Actors, and Manufacturing Department.
2. In April 2024, the Internal Security Service (the “**Service**”) became aware of the existence of the **Mayflower Server**’s predecessor server (the “**Predecessor Server**”) after it emerged that then-Committee Chairman **PandaBlahaj** had sent sexually suggestive material in the **Predecessor Server**, eventually leading to **PandaBlahaj**’s involuntary resignation.
3. In May 2024, it emerged that then-Committee Chairman **PandaBlahaj** had sent sexually suggestive material in the **Predecessor Server**, leading to **PandaBlahaj**’s involuntary resignation.
4. The **Predecessor Server** was reportedly closed following **PandaBlahaj**’s resignation and a purported crackdown on sexual content, in light of two earlier warnings directed at the Ethics Committee Command Team and Foundation Command Team from **Intcast** ([Exhibit 13](#) & [Exhibit 14](#)).
5. Shortly afterwards, the **Mayflower Server** was established as a successor for the heretofore **Predecessor Server**. The key distinction between the **Predecessor Server** and the **Mayflower Server** is that the **Predecessor Server** was owned by **4spha1t**, while the **Mayflower Server** is owned by **OMIN0U5**.
6. The **Service** concluded that the **Mayflower Server** did not require any further direct action, given that the risk to Pathos was fully mitigated by **PandaBlahaj**’s resignation; however, it continued to coordinate covert monitoring activities within the **Mayflower Server** due to the risk that a future problem would emerge.

7. In July 2024, the **Service**'s covert monitoring revealed activities of concern from several prolific individuals from Pathos.
8. Accordingly, the **Service** completed an extensive investigation (the "**Investigation**") into the **Mayflower Server**. The **Investigation** revealed to the **Service** that activities within the **Mayflower Server** posed a liability towards Pathos' community welfare, reputation, and ethical standards.
9. As such, this report (the "**Report**") has been authored and sent to the O5 Council (the "**Council**") with the intention of compelling O5-5 (Overseer for the Ethics Committee) and other members of the Council, where appropriate according to the scope of their responsibilities, to enact the crucial action outlined in Section VI.
10. The **Report** comprehensively establishes two key elements, which should be thoroughly considered by the **Council**:
 - a. the inappropriate, unethical, and reputationally compromising conduct of notable Pathos members within the **Mayflower Server** (Sections III, IV & V); and
 - b. the crucial action necessary to protect Pathos' community welfare, reputation, and ethical standards (Section VI).

11. The **Report** addresses the actions of the following individuals:
- a. **Winter_Selection**, Committee Chairman of the Ethics Committee, Actor of the Anomaly Actors, Security Cadet of the Security Department, Quality Assurance of the Manufacturing Department, and Community Officer of the Community Staff Team.
 - b. **YourFellow_Canadian**, Diplomatic Counsel of the Department of Diplomatic Affairs.
 - c. **Hal_eigh**, Senior Committee Member of the Ethics Committee, Junior Actor of the Anomaly Actors, and Medical Student of the Medical Department.
 - d. **ICFU**, Senior Actor of the Anomaly Actors and Quality Assurance of the Manufacturing Department.
 - e. **4spha1t**, Adept Researcher of the Scientific Department.
12. Furthermore, though the following individuals are mentioned in the **Report**, their compromising actions (if any, where appropriate) do not fall within its scope:
- a. **Person B**.
 - b. **Person A**, purported to be **Person B**'s personal family member (see Section III).
 - c. **PandaBlahaj**, former Committee Chairman of the Ethics Committee.
 - d. **Intcast**, former Overseer for the Ethics Committee.
 - e. **OMINOUS**, Committee Executive of the Ethics Committee, Junior Actor of the Anomaly Actors, and Community Staff of the Community Staff Team.

Section II - Account Connections

1. **Yourfellow_Canadian** is proven to use the pseudonym "*Gaybob Faggotpants*" in the **Mayflower Server**.
2. **Winter_Selection** is proven to use the pseudonym "*bob bottompants*" in the **Mayflower Server**.
3. **Hal_eigh** is proven to use the pseudonym "*half bob*" in the **Mayflower Server**.
4. **ICFU** is proven to use the pseudonym "*ICFUbobbbrainrotpants*" in the **Mayflower Server**.
5. **4spha1t** is proven to use the pseudonym "*bob freakpants*" in the **Mayflower Server**.

Section III - Inappropriate Collection, Distribution, and Misuse of Personal Information

1. On July 24 2024 **Yourfellow_Canadian**, **Winter_Selection**, and **Hal_eigh** had discovered a social media account belonging to **Person B**.
2. These individuals used this social media to find **Person A**, purported to be **Person B**'s personal family member.
3. **Winter_Selection** discovered another social media account belonging to **Person B** and opened direct messages belonging to the account where he proceeds to make a joke.
4. **Hal_eigh** presented another screenshot from a social media account associated with **Person A** and **Yourfellow_Canadian** boasts about being the one who originally found it.
5. Further association with the misuse of personal information is proven when **Yourfellow_Canadian** posts an image of another social media account belonging to **Person B**.
6. **Winter_Selection** begins harassing **Person B** through sending friends requests on social media..

Section IV - Unauthorised Disclosure of Explicitly Classified Material

1. The Service Entry Assessment was explicitly classified SC4 as per its cover page markings. On June 20 2024 **Winter_Selection** posted a picture of the **Service's** Service Entry Assessment in the **Mayflower Server**. The **Mayflower Server** contains individuals who do not qualify to view the SC4 material, as per the special access groups detailed in the original announcement (see [Exhibit 11](#)). This therefore constitutes an SC4 information breach.
2. Furthermore, **Winter_Selection** shared an image from the Anomaly Actors Discord server. This constitutes an SC5 information breach.
3. **ICFU** shared an image from the Anomaly Actors Discord server. This constitutes an SC5 information breach.
4. **ICFU** informed a **Mayflower Server** member about an upcoming SCP release. This constitutes an SC5 information breach.
5. **ICFU** announced the upcoming wave of Anomaly Actor inductees to active **Mayflower Server** members. The list sent contains the outcome of the vettings for each inductee. This constitutes an SC5 information breach.
6. **ICFU** created and shared a list of all upcoming SCPs in development in the **Mayflower Server**. This constitutes an SC5 information breach.

Section V - Sexually Suggestive, Inappropriate, and Vulgar Behaviour

1. On July 24 2024 **4spha1t** posted an image in the **Mayflower Server** from a Roblox tycoon game they played with **Winter_Selection**.
2. This image contained vulgar and sexually suggestive comments made by **Winter_Selection**.
3. Further behaviour was exhibited in a second Roblox game played by **Winter_Selection**, **4spha1t**, and **ICFU** displaying sexually imitative behaviour with **Winter_Selection** glorifying rape.
4. shows **Winter_Selection** utilising the “*Nurmonic*” server bot in the **Mayflower Server** in a sexually suggestive manner.
5. The “*Nurmonic*” bot is designed to “*adapt to your server's vibe, engage in conversations, and add dynamism to your community*” (see [Exhibit 28](#)). shows the “*Nurmonic*” server bot responding in a sexually suggestive manner. This demonstrably proves that the “*Nurmonic*” bot was manipulated to adopt a sexually suggestive tone in the **Mayflower Server**.
6. shows **ICFU** engaging in sexually suggestive comments in response to a sexually suggestive image posted by **Winter_Selection**.
7. Furthermore, a sexually suggestive message was posted by **ICFU** in regards to the Anomaly Actor Intake Cycle.

Section VI - Role of Inadequate Pathos Policy

1. Henceforth for the purposes of this report, all venues of communication (such as Discord servers) where Pathos is a dominant factor in either the common topics of conversation or in the composition of the membership, including official venues (such as departmental Discord servers owned by Pathos), shall be considered a part of the “**Sphere of Influence**”.
2. Section VI articulates the role of inadequate Pathos policy towards sexual content in the malignant development of the **Mayflower Server**; explaining how a lax attitude towards safeguarding in Pathos endangers community members, both in official Pathos venues and in unofficial **Sphere of Influence** venues.
3. The **Mayflower Server**, a venue where Pathos regularly dominates the conversation and where all members are a part of Pathos, with many holding prolific status, undoubtedly qualifies as a part of the **Sphere of Influence**.
4. Mostly unproblematic and insignificant sexual content is allowed to flourish in official Pathos venues due to the absence of a no-tolerance policy. In turn, this undermines the taboo associated with sexual content, therefore inviting members to discuss more problematic and significant sexual matters; however, the PG-13 content rule forbids this, causing unofficial venues within the **Sphere of Influence** where the PG-13 content rule does not apply, such as the **Mayflower Server**, to morph into forums for inappropriate sexual content.
5. It is clear that the risk of the inappropriate behaviour articulated in Section V would be significantly reduced if Pathos adopted a stricter policy towards sexual content.
6. The *status quo* is demonstrably insufficient. It has lent itself to several scandals, some of which are listed below. These scandals may have been avoided, or at least curbed, if there was a no-tolerance policy towards sexual content.

Section VII - Recommended Course of Action

1. **Winter_Selection** must be removed from his position as Committee Chairman and issued with a Foundation blacklist for the following reasons:
 - a. **Winter_Selection** engaged in conduct which risks a scandalous public image and jeopardises Pathos' reputation.
 - b. **Winter_Selection** engaged in the unauthorised disclosure of material explicitly classified Security Class 4.
 - c. **Winter_Selection** engaged in sexually suggestive, inappropriate, and vulgar conversations which undermine community welfare.

2. **Yourfellow_Canadian** must be removed from his position as Diplomatic Counselor and barred from obtaining Security Class 3 positions for the following reasons:
 - a. **Yourfellow_Canadian** engaged in conduct which risks a scandalous public image and jeopardising Pathos' reputation.

3. **Hal_eigh** must be barred from obtaining Security Class 3 positions for the following reasons:
 - a. **Hal_eigh** engaged in conduct which risks a scandalous public image and jeopardising Pathos' reputation.

4. **ICFU** must be removed from his position as Senior Actor and issued with a Foundation blacklist for the following reasons:
 - a. **ICFU** engaged in the unauthorised disclosure of material explicitly classified Security Class 5.
 - b. **ICFU** engaged in sexually suggestive, inappropriate, and vulgar conversations which undermine community welfare.

5. **4spha1t** must be removed from his position as Adept Researcher and barred from obtaining Security Class 3 positions for the following reasons:

- a. **4spha1t** engaged in conduct which risks a scandalous public image and jeopardising Pathos' reputation.
 - b. **4spha1t** engaged in sexually suggestive, inappropriate, and vulgar conversations which undermine community welfare.
6. Pathos must ban all sexual content from all of its servers, enacting a no-tolerance approach towards even borderline material (the "**No-Tolerance Policy**"). The reasons for this are as follows:
- a. It is clear from the details of the **Investigation** articulated in Section VI that Pathos' inadequate policy directly contributes to the emergence and flourishing of clusters of inappropriate sexual behaviour in the **Sphere of Influence**.
 - b. The **Sphere of Influence** encompasses many children aged between thirteen (13) and eighteen (18).
 - c. Given items 4(a) and 4(b), Pathos faces an ethical and reputational obligation to prevent the proliferation and systemic normalisation of sexual content in the **Sphere of Influence**.
 - d. As articulated in Section IV, the *status quo* is demonstrably insufficient at addressing the need for a safe environment in the **Sphere of Influence**.
7. The **Service** must be charged with the enforcement of the **No-Tolerance Policy** for three reasons:
- a. to demonstrate that it must be taken seriously;
 - b. to ensure that its implementation is not fickle; and
 - c. to make use of the **Service's** group-wide intelligence and enforcement assets.

Section VIII - Conclusion

The **Report** has clearly demonstrated the undeniable case for enacting the steps detailed in Section VII.

The **Service** hopes that the **Council** will concur with this viewpoint.

Thank you for your consideration.

Appendix I - Table of Exhibits

Exhibit	Description
1	Full server member list.
2	Account " <i>yourfellow_canadian</i> " with the nickname " <i>Gaybob Faggotpants</i> " in the Mayflower Server .
3	Account " <i>winterselection</i> " with the nickname " <i>bob bottompants</i> " in the Mayflower Server .
4	Account " <i>.haleigh</i> " with the nickname " <i>half bob</i> " in the Mayflower Server .
5	Account " <i>nauticaly</i> " with the nickname " <i>ICFUbob brainrotpants</i> " in the Mayflower Server .
6	Account " <i>aspha1t_</i> " with the nickname " <i>bob freakypants</i> ".
7	Post from Yourfellow_Canadian (" <i>Gaybob Faggotpants</i> ") with a link to an Instagram account.
8	Post from Yourfellow_Canadian (" <i>Gaybob Faggotpants</i> ") with a screenshot of an Instagram account.
9	Post from Winter_Selection (" <i>bob bottompants</i> ") with a screenshot of direct messages with a Facebook account, captioned " <i>guys what do i say im nervous [sic]</i> ".
10	Post from Winter_Selection (" <i>bob bottompants</i> ") with a screenshot of the Service Entry Assessment.
11	Post from Intcast announcing the Service Entry Form in the Ethics Committee server.
12	Post from Winter_Selection (" <i>bob bottompants</i> ") with a screenshot of the Anomaly Actors server, captioned " <i>dude dev and yald are getting on my nerves in SCP teaser heh. They don't know about it</i> ".
13	Post from Intcast in the Administration server announcing a no-tolerance policy on private scandals.

14 Post from **Intcast** in the Ethics Committee server, restricted to Senior Committee Members and above, announcing a no-tolerance policy on private scandals.

15 Post from **Hal_eigh** (“*half bob*”) with a screenshot of a post from the Instagram account of **Person B’s** personal family member. Below is a comment from **YourFellow_Canadian** (“*Gaybob Faggotpants*”) claiming to have originally found this.

16 Post from **Winter_Selection** with a screenshot of the Instagram account of **Person B** with a request to follow being made. Captioned “i hope she accepts my follow”

17 Post from **ICFU** (“*ICFUbob brainrotpants*”) with a screenshot from the Anomaly Actors server regarding a concept someone created for SCP-035

18 Post from **ICFU** (“*ICFUbob brainrotpants*”) with them stating a recent lore notice was for the buildup of SCP-096. This was regarding a lore notice from the beginning of August.

19 Post from **ICFU** (“*ICFUbob brainrotpants*”) of them sharing the next batch of Anomaly Actors inductees as well as the vetting results prior to them being inducted.

20 Post from **YourFellow_Canadian** (“*Gaybob Faggotpants*”) with a screenshot of the TikTok of **Person B** viewing their profile.

21 Post from **ICFU** (“*ICFUbob brainrotpants*”) informing the **Mayflower Server** the next five SCPs that are in development.

22 Post from **4spha1t** (“*bob freakpants*”) containing a screenshot of **Winter_Selection** making sexually suggestive comments.

23 Post from **4spha1t** (“*bob freakpants*”) containing a screenshot of **Winter_Selection** making sexually suggestive comments.

24 Roblox chat logs showing **Winter_Selection**, **4spha1t**, and **ICFU** engaging in sexually imitative behaviour.

25 Roblox screenshot containing an alternative perspective of **Winter_Selection** making a comment about rape, shown in [Exhibit 24](#).

26 Post from **Winter_Selection** containing a sexually suggestive and imitative description.

27 Post from **Winter_Selection** prompting a sexually suggestive response from the “Nurmonic” server bot.

28 Link to the “Nurmonic” server bot website.

29 Post from **Winter_Selection** (“*bob bottompants*”) containing a sexually suggestive screenshot posted by **4spha1t** (“*bob freakpants*”) and a sexually suggestive response from **ICFU** (“*ICFUbob brainrotpants*”).

30 Post from **ICFU** containing a sexually suggestive reference to the Anomaly Actor Intake Cycle.
