

PLAN ↑s

Structural material of a nonimaging CPC-type reflector concentrator, and substrate for flat glass mirror segments, may be a CSEB kitchen wall. The other CPC side may have anodized aluminum reflector lift-off panels for access. Joel H. Goodman Feb. 5, 2018

Thru-reflector-kitchen wall solar cooker with sloped hip roof building.

Two 3-cooker vessel involute modules as a target for the CPC thru-wall-reflector kitchen study.

Joel H. Goodman Feb. 16, 2018
