02:00:01 **<Imperialles>** I bid you all Dark Greetings! Welcome to the Wookieepedia Mofference.
02:00:03 * Imperialles has changed the topic to: Yes, this is the Mofference | The channel is moderated. Spammers will be devoiced. | Current topic: IRC policies
02:00:06 **<Imperialles>** Silence, you.
02:00:10 * Imperialles coughs
02:00:20 **<Enochf>** Ricola?
02:00:20 **<Imperialles>** IRC Policies — It seems we need some. Specific issues include:
02:00:20 **<Imperialles>**   * Civility. Wookieepedia-style NPA rules may not work too well in IRC, even if we want them to. How then do we establish guidelines? Or do we?
02:00:20 **<Imperialles>**   * Preventing Whining. Civility guidelines that are too strict may result in IRC devolving into preschool recess. (And don't give me that shocked look. We all know there are lots and lots of idiots about.)
02:00:20 **<Imperialles>**   * Operator Privileges. Freenode doesn't want us to use them except when necessary. Some feel they're necessary so often that we ought to just keep people opped.
02:00:20 **<Imperialles>**   * Boot Policy. Even if no other policies can be agreed upon, perhaps simply determining appropriate situations to boot someone (versus mute the channel, an option that could suffice for most disruptions IMO) and requiring operators to adhere to that might be enough. Some users feel this prohibits the opportunity to have fun with booting. Gonk (Gonk!) 22:54, 28 August 2007 (UTC)
02:00:33 **<Imperialles>** Gonk has some proposals, Culator has some proposals.

02:00:46 **<Gonk>** http://starwars.wikia.com/wiki/User:Darth_Culator/proposedIRCrules
02:00:47 * Ozzel|Away is now known as Ozzel
02:01:05 **<Jedi_Goodwood>** I like the general rule of "Don't be a Dick", but I'd like to see a bit more definition to the term.
02:01:30 **<Imperialles>** I like the loose definition.
02:01:35 **<Gonk>** I intended it mainly to mean"NPA doesn't apply in IRC, buuuuut..."
02:01:38 **<Jedi_Goodwood>** Also, I think trollers and those who provoke arguments ought to be prone to the same sanctions.
02:01:46 **<Jedi_Goodwood>** I see, and agree.
02:01:48 **<Grey-man>** I tend to like both Gonk's and Culator's points
02:01:51 **<The4dotelipsis0>** I don't think we should have NPA in here.
02:01:53 **<Enochf>** Huh. No objections the proposed... are those really our biggest problems, though?
02:01:55 **<Imperialles>** I don't know.
02:02:01 **<The4dotelipsis0>** This is like a Lounge Room for Wookieepedia.
02:02:17 **<Imperialles>** Culator's 1, 2 and 4 are just the thing that he and Jaymach were doing before they got demoted.
02:02:25 **<Imperialles>** I like his #3, but that's it.
02:02:29 **<Darth_Culator>** Not really.
02:02:29 **<The4dotelipsis0>** It's a place where nice, fun, heated and dirty debate doesn't actually disrupt Wookieepedia.
02:02:36 **<Jedi_Goodwood>** I don't like the fact that certain users can get away with provoking disruptions while the other disruptive party gets sanctioned.
02:02:43 **<jSarek>** I don't think blanket bans on political or religious discussion should be in effect, so long as they're handled civilly and don't interfere with Wook business.
02:03:01 **<The4dotelipsis0>** Per jSarek.
02:03:04 **<Jedimca0>** agreed
02:03:06 **<Jedi_Goodwood>** Agreed.
02:03:08 **<Graestan>** The politics and/or religion should at least be stopped upon any user's request.
02:03:08 **<Gonk>** Strong not per jSarek
02:03:18 **<Gonk>** ok, per Grae
02:03:31 **<Jedi_Goodwood>** Grae's caveat is god.
02:03:33 **<jSarek>** I can live with that caveat.
02:03:34 **<Jedi_Goodwood>** good.
02:03:34 **<Gonk>** But SW attracts a lot of people from VERY varied political and religious backgrounds.
02:03:38 **<The4dotelipsis0>** Yes.
02:03:39 **<Gonk>** We need SOME sort of policy.
02:03:41 **<Havac>** I like both proposals.
02:03:41 **<The4dotelipsis0>** Cave at.

02:03:56 **<Gonk>** I am extremely uncomfortable with relaxing the policy, but I can live with Grae's proposal.
02:04:08 **<Imperialles>** "English is the official language of the Wookieepedia IRC. We don't care if it's British or American. "L33t" or "TXT" are NOT English, and their use will be grounds for kicking."
02:04:10 **<Havac>** And politics happens anyway, we just shut it down when it gets out of hand.
02:04:11 * LucidFox (n=LucidFox@wikia/Sikon) has joined #wookieepedia
02:04:11 **<Graestan>** I think it's good, if everyone respects it.
02:04:11 * Nuku-Nuku gives channel operator status to LucidFox
02:04:12 * Ataru (n=chatzill@wikia/Ataru) has joined #wookieepedia
02:04:14 **<Darth_Culator>** My number 4 is basically the same as Gonk's number 2.
02:04:18 **<jSarek>** Hello Sikon, Ataru.
02:04:22 **<Ataru>** Hello
02:04:23 * Grey-man gives channel operator status to Ataru
02:04:25 **<ChackJadson>** Hey Ataru
02:04:28 **<Ozzel>** Please see here for my opinions on the issues during my short absence: http://starwars.wikia.com/wiki/User:Ozzel/Mofference
02:04:30 * Ozzel is now known as Ozzel|Away
02:04:32 **<Enochf>** TXT?
02:04:36 **<Imperialles>** Culator's #1 is just lame. We're not going to kick someone because they can't spell.
02:04:41 **<Enochf>** wht u mn lk ths?
02:04:42 **<Havac>** Yes we are.
02:04:43 **<Darth_Culator>** My number 1 is absolutely critical. If people can't be bothered to speak clearly, they shouldn't be allowed to speak at all.
02:04:45 **<Jedi_Goodwood>** Agree with Imp.
02:04:47 **<Ataru>** ner
02:04:47 **<The4dotelipsis0>** R U Gng 2 Scrbugh Fr?
02:04:50 **<Graestan>** L33T and TXT are annoying, but I think most real users don't violate this.
02:04:53 **<Graestan>** It's very specific.
02:04:54 **<Gonk>** Per Grae
02:04:55 **<LucidFox>** Has the Mofference started?
02:04:57 **<Ataru>** I will kick anyone who is off-topic
02:05:00 **<Imperialles>** L33T and TXT are dead horses.
02:05:01 **<Ataru>** as soon as it starts
02:05:01 **<Havac>** It's not about misspelling.
02:05:01 **<jSarek>** Sikon: Yes.
02:05:09 **<Jedi_Goodwood>** Grae is right, I feel.
02:05:11 **<Havac>** It's about spelling like a 12-year-old texting.
02:05:12 **<Imperialles>** I have it under control, Ataru.
02:05:14 **<Gonk>** Imp bade us dark greetings already
02:05:15 **<Ataru>** Ok
02:05:21 **<Jedimca0>** per Graestan
02:05:33 **<Enochf>** I think impersonating a newbie for giggles should be a kickable offense
02:05:43 **<ChackJadson>** Good idea
02:05:43 **<The4dotelipsis0>** Yeah.
02:05:44 **<Jedi_Goodwood>** Per enochf.
02:05:45 **<Jedimca0>** Agreed
02:05:46 **<Ataru>** Are we on agenda yet?
02:05:47 **<LtNOWIS>** Yeah, lazy writing is not the same as 12 year old AOL writing.
02:05:50 **<AdmirableAckbar>** Yes
02:05:51 **<The4dotelipsis0>** All impersonations since Jorrel's have been lame.
02:05:52 **<Jedi_Goodwood>** Yes Ataru.
02:05:52 **<Imperialles>** yes, see the topic.
02:05:55 **<Havac>** I think we shouldn't have to categorize kickable offenses.
02:05:55 **<jSarek>** I think some leeway should be allowed at the discretion of the admins regarding spelling and language.
02:06:01 **<Gonk>** I just worry that a too-precise rule about spelling will prohibit people from saying AFAIK and IIRC, etc. (and ETC.)
02:06:03 **<Ataru>** Agree with that, yes
02:06:08 **<Havac>** I say we just, you know, use this thing called "Common sense".
02:06:09 **<Graestan>** per Gonk
02:06:14 **<The4dotelipsis0>** Subjective.
02:06:18 **<Ataru>** It's a chat room, spelling shouldn't be that restricted

02:06:18 **<GreenTentacle>** Per Havac.
02:06:23 **<Imperialles>** Subjective is good, in this case.
02:06:24 **<Graestan>** case-by-case, leave it up to admins
02:06:30 **<Ataru>** And if someone is spelling that badly, they're probably doing something else wrong
02:06:35 **<Grey-man>** Common sense works
02:06:36 **<jSarek>** I mean, for Grae and I to be kicked for a little fun Klingon conversation like we had earlier is silly. Had we gone overboard, though . . . boot.
02:06:41 **<Gonk>** :)
02:06:43 **<Graestan>** per jSarek
02:06:56 **<Graestan>** We know when to stop.
02:06:57 **<StarNeptune>** oh, this started
02:06:57 **<Jedimca0>** agreed
02:07:01 **<Havac>** And common sense passes!
02:07:03 **<StarNeptune>** Now I got to leave...rofl
02:07:06 **<Ataru>** lol
02:07:06 **<Jedi_Goodwood>** lol
02:07:09 **<Jedi_Goodwood>** See ya Star.
02:07:12 **<jSarek>** Aww. :-(Bye Star.
02:07:16 * StarNeptune is now known as Star|AFK
02:07:17 **<Ataru>** Later
02:07:19 **<Gonk>** I also think all admins should be opped all the time. But that's a minor point.
02:07:24 **<Ataru>** Disagree
02:07:28 **<Imperialles>** Alright, vote time. "Don't be a dick. ...You will never be asked to be "nice," and personal attacks are unpreventable in IRC. But as a guideline, don't go out of your way to piss people off. Vicious abuse is grounds for sanctions." Adopt this rule?
02:07:28 **<Jedi_Goodwood>** Disagree.
02:07:34 **<Imperialles>** Adopt.
02:07:34 **<Ataru>** Adopt
02:07:37 **<Ataru>** We need this
02:07:37 **<jSarek>** Adopt.
02:07:38 **<ChackJadson>** Yes
02:07:38 **<Darth_Culator>** Ya.
02:07:39 **<Jedi_Goodwood>** Adopt.
02:07:39 **<Enochf>** DBAD YES
02:07:40 **<GreenTentacle>** Adopt.
02:07:40 **<Gonk>** Adopt
02:07:41 **<Grey-man>** Yes
02:07:41 **<Jedimca0>** yes
02:07:43 **<AdmirableAckbar>** Adopt
02:07:44 **<Graestan>** Adopt
02:07:46 **<Imperialles>** Rule adopted.
02:07:48 **<Enochf>** I sense consensus
02:07:52 **<Imperialles>** "No whining. ...Users who ask for something from another IRC user and are refused it should not stoop to whiny bitching, which is grounds for sanctions. It is acceptable to be persistent, but in a mature manner." Adopt this rule?
02:07:52 **<Havac>** Adopt.
02:07:57 **<The4dotelipsis0>** Leave on a doorstep.
02:07:57 **<Havac>** Adopt.
02:07:57 **<Enochf>** Eh
02:07:59 **<Jedi_Goodwood>** No.
02:08:00 **<ChackJadson>** Yeah
02:08:01 **<AdmirableAckbar>** Adopt
02:08:02 **<Ataru>** Adopt with some leeway
02:08:03 **<Darth_Culator>** Yes.
02:08:03 **<jSarek>** Adopt.
02:08:05 **<Graestan>** Specify:
02:08:05 **<The4dotelipsis0>** No.
02:08:06 **<Gonk>** Adopt instead of Culator's #4, which I think is too strict
02:08:07 **<Enochf>** Who is this aimed at? ^_^
02:08:09 **<GreenTentacle>** Adopt.
02:08:11 **<Jedimca0>** yes
02:08:11 **<Grey-man>** Yes

02:08:11 **<Imperialles>** Per Ataru.
02:08:14 **<Havac>** Persistence should only be mature.
02:08:14 **<jSarek>** Per Gonk.
02:08:19 **<Graestan>** per Havac
02:08:20 **<Gonk>** per Havac
02:08:24 **<LtNOWIS>** sure
02:08:25 **<AdmirableAckbar>** yes
02:08:29 **<The4dotelipsis0>** I call elitism.
02:08:30 **<Ataru>** Some leeway should be given on this, but a good principle
02:08:36 **<Havac>** Exactly.
02:08:37 **<Grey-man>** yes
02:08:38 **<Gonk>** Leeway is good
02:08:39 **<Graestan>** yes
02:08:43 **<Imperialles>** We will word it to allow for leeway.
02:08:44 **<AdmirableAckbar>** yup
02:08:45 **<Graestan>** Warnings help.
02:08:45 **<Jedimca0>** agreed
02:08:48 **<Ataru>** Yes
02:08:50 **<jSarek>** 4dot: Clarify, how is this elitist?
02:08:50 **<Ataru>** Warnings good
02:08:55 **<Gonk>** Warnings, definitely
02:08:59 **<Jedi_Goodwood>** Warnings, yes.
02:08:59 **<The4dotelipsis0>** ...did I read the wrong thing?
02:09:02 **<The4dotelipsis0>** Some kinda lag?
02:09:05 **<Graestan>** No flying off the handle at offenders. Cool warnings.
02:09:07 **<jSarek>** Yes, definitely warning.
02:09:13 **<The4dotelipsis0>** We're kicking people for being immature even though they might be?
02:09:16 **<Jedi_Goodwood>** Per Graestan.
02:09:21 **<Grey-man>** Warnings for sure, kicks to follow
02:09:26 **<Jedimca0>** Per Graestan
02:09:35 **<Jedimca0>** agreed
02:09:38 **<Gonk>** For being continually, disruptively immature
02:09:53 **<Ataru>** Per Gonk
02:09:55 **<Imperialles>** The majority is in favor. Rule adopted.
02:09:58 **<Imperialles>** "No discussion of RL politics or religion. ...Grounds for sanctions."
02:09:59 **<Jedi_Goodwood>** Evolution.
02:10:00 **<Imperialles>** Adopt.
02:10:01 **<The4dotelipsis0>** As long as it's not a kneejerk and #wookieepedia doesn't turn into bloody 1984.
02:10:04 **<Darth_Culator>** Works for me.
02:10:05 **<Graestan>** Adopt
02:10:06 **<Jedi_Goodwood>** No.
02:10:07 **<jSarek>** Reject.
02:10:10 **<Jedi_Goodwood>** Reject.
02:10:10 **<GreenTentacle>** Reject.
02:10:12 **<Jedimca0>** No
02:10:15 **<ChackJadson>** Adopt
02:10:17 **<Gonk>** Graestan's compromise?
02:10:19 **<Ataru>** Reject
02:10:19 **<The4dotelipsis0>** Adopt.
02:10:20 **<Graestan>** Yes
02:10:32 **<Grey-man>** No
02:10:33 **<jSarek>** Adopt Graestan's compromise.
02:10:33 **<Jedi_Goodwood>** All in favor of Graestan's compromise:
02:10:36 **<Jedi_Goodwood>** Adopt.
02:10:37 **<ChackJadson>** Sure, use the compromise
02:10:38 **<Graestan>** Me!
02:10:39 **<Gonk>** Graestan's compromise
02:10:40 **<Imperialles>** Sure.
02:10:40 **<Darth_Culator>** Yes. Politics allowed with consent.
02:10:43 **<Ataru>** What is the compromise?
02:10:46 **<Darth_Culator>** Religion likewise.
02:10:51 **<GreenTentacle>** Graestan has a compromise?
02:10:52 **<Graestan>** If user objects, we all stop
02:10:55 **<Grey-man>** Consent works

02:10:58 **<Imperialles>** The "stop rule"
02:10:58 **<AdmirableAckbar>** Sure
02:11:00 **<Jedimca0>** Graestan's compromise
02:11:01 **<Havac>** Adopt Grae's.
02:11:03 **<jSarek>** Ataru: Political/Religious discussion allowed unless any user asks it to stop.
02:11:07 **<Graestan>** No means no, and such.
02:11:10 **<GreenTentacle>** Fine, go with Grae's.
02:11:11 **<AdmirableAckbar>** Adopt Grae
02:11:13 * Gonk sure hopes this works :)
02:11:19 **<Imperialles>** Graestan's rule adopted.
02:11:20 **<Ataru>** Eh . . . I somewhat dislike the idea because any random user can stop discussion
02:11:22 **<Jedi_Goodwood>** And it should not matter if the user who asks it to stop is a noob or not.
02:11:24 **<Graestan>** Help us enforce, Gonk.
02:11:27 **<Ataru>** Bah!
02:11:29 **<Gonk>** Oh I will
02:11:34 **<jSarek>** Ataru: Better than the discussion never being allowed in the first place.
02:11:43 **<Imperialles>** "English is the official language of the Wookieepedia IRC. We don't care if it's British or American. "L33t" or "TXT" are NOT English, and their use will be grounds for kicking."
02:11:45 **<Imperialles>** Adopt?
02:11:47 **<Darth_Culator>** YES
02:11:48 **<Imperialles>** Reject.
02:11:50 **<Jedi_Goodwood>** Reject.
02:11:50 **<GreenTentacle>** Adopt.
02:11:51 **<Ataru>** Reject
02:11:51 **<The4dotelipsis0>** Yes.
02:11:52 **<Havac>** Adopt.
02:11:54 **<jSarek>** Reject as written.
02:11:54 **<The4dotelipsis0>** My eyes hurt.
02:11:56 **<Jedimca0>** Yes
02:11:57 **<Ataru>** It's a kriffing chat room
02:11:58 **<Gonk>** And a sufficiently heated discussion can always go to Darthipedia IRC, where we have NO RULES :)
02:12:00 **<Graestan>** Warnings...
02:12:01 **<Ataru>** Not a grammar class
02:12:05 **<Gonk>** Adopt with leeway
02:12:08 **<Gonk>** and warnings
02:12:08 **<Graestan>** Leeway
02:12:11 **<ChackJadson>** Per Gonk
02:12:12 **<Graestan>** per Gonk
02:12:16 **<jSarek>** Per Gonk.
02:12:22 **<Jedimca0>** with leeway
02:12:23 **<Havac>** Banning LEET does not make it a fricking grammar class.
02:12:35 **<AdmirableAckbar>** Per Gonk
02:12:40 **<The4dotelipsis0>** It makes it a civilised discussion.
02:12:43 **<Ataru>** With lots of leeway . . . we have international visitors to #wookieepedia
02:12:48 **<GreenTentacle>** The odd abbreviation is fine, LEET is moronic.
02:12:50 **<Jedi_Goodwood>** What about LOL, BBL, AFK, AFAIK, IIRC, etc?
02:12:51 **<Graestan>** Indeed
02:12:51 **<LtNOWIS>** Lazy or drunk writing is different from "1337"
02:12:59 **<Gonk>** Those are fine Goodwood
02:13:02 **<Imperialles>** Consensus is in favor of Gonk's compromise. We will word the rule to allow for abbreviations.
02:13:03 **<Ataru>** Instruction creep!
02:13:04 **<AdmirableAckbar>** Yeah
02:13:05 **<Jedi_Goodwood>** I knew they would be.
02:13:06 **<Imperialles>** Rule adopted.
02:13:06 **<Darth_Culator>** & bnng abbrev8ns + sch s gud
02:13:10 **<LtNOWIS>** AFAIK is just efficiency.
02:13:12 **<The4dotelipsis0>** Instruction Creep is Horse Manure.
02:13:16 **<Ataru>** LIES!
02:13:19 **<LtNOWIS>** Writing it out would be dumb.

02:13:22 **<Imperialles>** "If you say something and nobody responds, you might have dropped connection. If you say something twice and nobody responds, they might be ignoring you. If you say the same thing three times, you're getting kicked." Adopt this rule?
02:13:23 **<Jedi_Goodwood>** lol
02:13:30 **<Darth_Culator>** Nutshell: No spamming.
02:13:30 **<Havac>** Yes.
02:13:31 **<Jedi_Goodwood>** Reject.
02:13:32 **<Graestan>** No
02:13:33 **<Imperialles>** Reject.
02:13:34 **<Darth_Culator>** Yes.
02:13:36 **<Ataru>** Not as worded
02:13:37 **<Havac>** Repetition, spamming, no good.
02:13:37 **<ChackJadson>** Reject
02:13:37 **<GreenTentacle>** Reject.
02:13:38 **<Ataru>** Reject
02:13:44 **<jSarek>** Reject.
02:13:44 **<Graestan>** Warnings, at the very least.
02:13:47 **<AdmirableAckbar>** somewhat reject
02:13:48 **<Jedi_Goodwood>** Highly reject as worded.
02:13:51 **<The4dotelipsis0>** No way.
02:13:51 **<Havac>** Guys, is anyone here>
02:13:52 **<Jedimca0>** Reject.
02:13:52 **<Darth_Culator>** Warnings are implied.
02:13:53 **<The4dotelipsis0>** Reject.
02:13:56 **<Havac>** How come no one's talking.
02:13:57 **<Darth_Culator>** We're not monsters.
02:14:00 **<Ataru>** I smell consensus
02:14:00 **<Havac>** Is anyone here?
02:14:03 **<Gonk>** Reject as worded... Maybe just "no spamming"
02:14:03 **<Havac>** Is anyone here?
02:14:06 * Imperialles removes channel operator status from Havac
02:14:08 **<Havac>** That's the stuff this will stop.
02:14:14 **<Jedi_Goodwood>** lol

02:17:43 **<Darth_Culator>** Can we do Mofference item 1 bullet point 3?
02:17:50 **<Darth_Culator>** Operator Privileges. Freenode doesn't want us to use them except when necessary. Some feel they're necessary so often that we ought to just keep people opped.

02:19:21 **<LucidFox>** Darth_Culator> Didn't we discuss the op thing with Freenode and Wikia?
02:19:24 **<jSarek>** Opping makes it quickly easy to see if we have Admins in the room for new users. They should generally be opped even when not exercising abilities.
02:19:28 **<Darth_Culator>** Good. So no enforced NON-oppage.
02:19:31 **<Graestan>** per jSarek
02:19:36 **<sannse>** Wikia has no opinion on it

02:19:49 **<sannse>** (I do, but that's known :)
02:19:56 **<Grey-man>** Indeed
02:19:57 **<Imperialles>** Consensus is to let ops do as they please.

02:20:34 **<Imperialles>** The standard sanctions for dealing with violators of IRC policies are as follows:
02:20:34 **<Imperialles>**   1. Warning. Directed at the violator by an operator.
02:20:34 **<Imperialles>**   2. Channel mute. ...More effective than instant kicking. Voice all users except the violator, and allow said violator to grow frustrated and quit on his own—and thereby be less likely to rejoin immediately after being kicked.
02:20:34 **<Imperialles>**   3. Kicking. ...Should only occur when policy violations, spamming, trolling, and similar transgressions are sufficiently obvious and continuous that all operators agree.
02:20:34 **<Imperialles>**   4. Kickbanning. ...When kicking just ain't enough.

02:21:28 **<Imperialles>** Sanctions adopted with Culator's amendment.

02:22:39 **<Jedi_Goodwood>** DELETE THE RONET COON SEARCHBOX!
02:22:44 **<Imperialles>** Guideline proposals:
02:22:45 **<Imperialles>**   1. The administrators reserve the right to dismiss any
search icon as low quality.
02:22:45 **<Imperialles>**   2. The items pictured on search icons can only be cropped
on one side: the bottom. We may make exceptions in some cases, but not for droids
and people search icons.
02:22:45 **<Imperialles>**   3. Make sure the item pictured is correctly placed above
the search box. See Image:Cutoff.png for an example of what not to do.
02:22:57 **<Ataru>** Yeah, sure
02:23:01 **<Havac>** I object to 2.
02:23:17 **<Darth_Culator>** 2 should be a guideline.

02:26:45 **<The4dotelipsis0>** Not really, but anyway.
02:26:46 **<Enochf>** Promotional or Screenshot (whichever is better) outrank Artwork
02:26:56 **<The4dotelipsis0>** Why?
02:27:04 **<LtNOWIS>** What do we mean by "artwork"?
02:27:07 **<Grey-man>** I would say whatever is the *best* image

02:27:27 **<Havac>** We have consensus. Let's move along.
02:27:27 **<Graestan>** WHat the casual visitor is more likely to see.
02:27:29 **<GreenTentacle>** Screenshots from older games look terrible.
02:27:30 **<Havac>** No way.
02:27:32 **<Graestan>** Nay.
02:27:33 **<Gonk>** No way

02:27:33 **<Imperialles>** Strong YAY
02:27:34 **<Jedi_Goodwood>** Adopt.
02:27:34 **<LtNOWIS>** Comic book Kyle is no less real than Game Kyle.

02:27:42 **<Darth_Culator>** PHPBB FTW
02:27:42 **<Gonk>** We can't watch phpBB pages.
02:27:43 **<Ataru>** Smash forums
02:27:44 **<Imperialles>** Our current forums are a disaster.
02:27:45 **<AdmirableAckbar>** No

02:28:01 **<Grey-man>** The new forums look nice, I say Yes.
02:28:04 **<Havac>** I hate phpbb.
02:28:05 **<Jedi_Goodwood>** You can watch phpBB threads.
02:28:05 **<Ataru>** And I hate the stupidity on forums anyway
02:28:07 **<The4dotelipsis0>** WP > TFN.
02:28:07 **<jSarek>** Insufficiently strong opinion to vote.
02:28:08 **<Havac>** We don't need it.
02:28:09 **<Imperialles>** PhpBB means more user friendliness, easier administration
02:28:11 **<Jedimca0>** > per Gonk
02:28:14 **<Gonk>** Goodwood > how?
02:28:14 **<Imperialles>** Easier readanilty

02:28:15 **<LucidFox>** We do need it.
02:28:16 **<Enochf>** phpBB sounds like Roger Rabbit
02:28:19 **<JMAS>** Don't need it
02:28:23 **<Ozzel>** Need? How?
02:28:24 **<LucidFox>** Because our current forums are crap.
02:28:24 **<sannse>** just to be clear, the new forums are still buggy, and I don't know
    when that will be fixed
02:28:26 **<Havac>** We don't need it.
02:28:28 **<Jedi_Goodwood>** Click the "Watch this Topic" button.
02:28:29 **<SillyDan>** phpBB for Senate Hall, but existing format for CT?
02:28:33 **<sannse>** if you want them, they are "as is"
02:28:35 **<Darth_Bassan94>** *Shoots all challengers
02:28:38 **<LucidFox>** SillyDan> That works.
02:28:39 **<Havac>** We can't change the CT format.
02:28:39 **<Graestan>** Per Silly Dan!
02:28:41 **<Grey-man>** Thanks sannse
02:28:43 **<Havac>** Votes in forums won't work.
02:28:48 **<LucidFox>** Bah!
02:28:51 **<Imperialles>** Yes, they will.
02:28:54 **<Havac>** But anyway, please god no to phpBB.
02:28:59 **<Ataru>** Per Havac
02:29:02 **<Ataru>** No phpBB
02:29:07 * Gonk doesn't see how our current forums are a disaster
02:29:09 **<Jedi_Goodwood>** phpBB rules the roost.
02:29:11 **<Darth_Culator>** Per Imp and Sikon.
02:29:17 * Skeith has quit (Remote closed the connection)
02:29:18 **<The4dotelipsis0>** Yes for phpBB.
02:29:20 **<AdmirableAckbar>** Per Havac
02:29:26 **<jSarek>** What exactly is the objection to having them?
02:29:32 **<Jedi_Goodwood>** You're such a fish.
02:29:33 **<Jedi_Goodwood>** :)
02:29:35 **<Imperialles>** Our current forums are a) Hard to read and follow. b) Hard to
    archive. c) Unprofessional looking and messy.
02:29:35 **<Darth_Culator>** "Change is bad."

02:29:42 **<Ataru>** I oppose anything that gives us a more forum-ish mentality
02:29:46 **<SillyDan>** Our current Senate Hall is haphazard, with lots of topic duplication and difficult search abilities
02:29:48 **<Ozzel>** We are not a discussion forum.
02:29:49 * Darth_Bassan94 (i=446d8ad0@gateway/web/cgi-irc/irc.wikia.com/x-e8155f0e6b4dbe84) has left #wookieepedia
02:29:49 **<Jedi_Goodwood>** Per Imperialles.
02:29:49 **<Graestan>** C) is very true
02:29:51 **<JMAS>** There are plenty of Star Wars forums out there. Wookieepedia doesn't need to include one also
02:29:55 **<Ataru>** I oppose anything that makes it easier people to post discussion forums
02:29:55 **<Enochf>** Per Silly
02:29:56 **<Rocky44>** good point
02:29:58 **<Havac>** Per Ataru.
02:30:01 **<Imperialles>** It won't be a Star Wars forum.
02:30:03 **<Gonk>** Better that people learn to use wiki format :)
02:30:05 **<AdmirableAckbar>** Per Ataru
02:30:07 **<Ozzel>** I agree with... Ataru?
02:30:08 **<Jedimca0>** > Per Ataru.
02:30:09 **<Ataru>** Mostly because their discussion is less than an elementary school level
02:30:10 **<Imperialles>** It will be SH, CT, AN, and KB.
02:30:13 **<LucidFox>** So, I propose: current forum for CT, phpBB for everything else
02:30:17 **<Imperialles>** Nothing else. Tightly moderated.
02:30:17 **<Ataru>** No!
02:30:20 **<ChackJadson>** NO
02:30:21 **<AdmirableAckbar>** No
02:30:21 **<LucidFox>** (namely, SH, ANB and KB)
02:30:22 **<The4dotelipsis0>** Per LucidFox.
02:30:22 **<Ataru>** Kill idea!
02:30:23 **<sannse>** Gonk: the Wikia php forums accept wikicode
02:30:28 **<jSarek>** So, we *moderate* the phpBB boards, like we do the Wiki boards.
02:30:29 **<AdmirableAckbar>** Per Ataru
02:30:30 **<Imperialles>** Per LucidFox.
02:30:33 **<Havac>** Per Ataru!
02:30:34 **<Ozzel>** No, not forums at all.
02:30:34 **<sannse>** (at least, they should)
02:30:48 **<Gonk>** How would voting in phpBB work?
02:30:56 **<Jedimca0>** Per Ataru
02:30:56 **<Darth_Culator>** Per the non-naysayers, and damn the double negative!
02:31:05 **<Imperialles>** That's why CT is staying as a regular forum.
02:31:05 **<Ataru>** Bah!
02:31:08 **<Enochf>** Non-naysaying rules!
02:31:14 **<Havac>** We don't need phpBB -- it'll just become a headache.
02:31:19 **<Jedi_Goodwood>** Voting in phpBB is easy. Select the radio icon of your choice and click "Submit".
02:31:20 **<AdmirableAckbar>** Yeah
02:31:22 **<Havac>** And sannse says they're still buggy.
02:31:23 **<Ataru>** Seriously
02:31:34 **<Ataru>** I don't want a new toy that breaks and will invite more idiocy
02:31:37 **<Imperialles>** Ataru: It would not lead us to a forum mentality. It would be the same as now, except easier to read and admin.
02:31:37 **<Enochf>** Bah. Everything is buggy. This is the Age of Vista.
02:31:38 **<jSarek>** Goodwood: That's for anonymous voting, which I don't think I want.
02:31:39 **<Graestan>** per Havac. No bugs.
02:31:41 **<Ozzel>** Goodwood: That won't show the voters.
02:31:44 **<Darth_Culator>** I like new toys!
02:31:50 **<AdmirableAckbar>** Per Ozzel
02:31:51 **<LucidFox>** Enochf> No, this is the Age of Pluralism.
02:31:51 **<Rocky44>** why not just discuss star wars, this is a mofference.
02:31:54 **<LucidFox>** Not just Vista.
02:31:56 **<Jedi_Goodwood>** Make it so that only registered users can vote.
02:32:01 * Imperialles removes voice from Rocky44
02:32:03 **<Ataru>** Mute Rocky44
02:32:04 **<Ataru>** Thanks
02:32:06 **<LucidFox>** Jedi_Goodwood> NO.

02:32:07 **<The4dotelipsis0>** Thank you.
02:32:18 **<Ataru>** Make it so we don't have to have phpBB
02:32:22 **<jSarek>** Goodwood: I want to see who's voting what, and why.
02:32:26 **<Havac>** Exactly.
02:32:27 **<Ataru>** Per jSarek
02:32:28 **<AdmirableAckbar>** Me too
02:32:28 **<Jedi_Goodwood>** Alternate idea: Offsite phpBB forum: Aye or Nay?
02:32:30 **<Imperialles>** I propose we hold this discussion until Wikia has developed a working phpBB forum.
02:32:32 **<Havac>** Nay.
02:32:33 **<Ozzel>** Nay.
02:32:34 **<Ataru>** Nay
02:32:35 **<AdmirableAckbar>** Nay
02:32:35 **<LucidFox>** Offsite? No.
02:32:36 **<Jedimca0>** No
02:32:38 **<Grey-man>** No
02:32:38 **<Darth_Culator>** This might be too volatile for a mofference.
02:32:41 **<Gonk>** Offsite forum?! even stronger nay.
02:32:42 **<Ataru>** Move to CT
02:32:43 **<Graestan>** nay
02:32:44 **<Havac>** Offsite is wholly unnecessary.
02:32:46 **<The4dotelipsis0>** Nay, no offsite trash.
02:32:47 **<jSarek>** Goodwood: If we're going to have the forum, we might as well have it here.
02:32:48 **<Ataru>** So it can be shot down there
02:32:50 **<Enochf>** Alternate alternate idea, move the non-phpBB forum offsite and put the phpBB onsite
02:32:54 **<Ataru>** No
02:32:57 **<Havac>** No.
02:32:58 **<Jedi_Goodwood>** Just tossing it out there, jSarek.

02:33:04 **<LucidFox>** Nah.
02:33:04 **<Gonk>** How about we use both for a while?
02:33:06 **<Ataru>** No
02:33:07 **<Havac>** Let's drop it for now.
02:33:08 **<LtNOWIS>** No
02:33:10 **<AdmirableAckbar>** No
02:33:11 **<jSarek>** Vote to table.
02:33:12 **<Ataru>** Vote to table
02:33:13 **<Havac>** No consensus, and we're not going to get any.
02:33:15 **<Enochf>** Dropping it, sir
02:33:16 **<Darth_Culator>** A, wait for reduction in bugs. B, take to CT.
02:33:17 **<Jedi_Goodwood>** Table.
02:33:23 * Jedi_Goodwood drops it on Ataru's foot.
02:33:26 **<LucidFox>** Per Culator.

02:33:41 **<Enochf>** No
02:33:42 **<Havac>** Hell, hell no.
02:33:42 **<LucidFox>** Havac> Why?
02:33:43 **<Imperialles>** Copyright issues?
02:33:44 **<ChackJadson>** No

02:33:44 **<Jedi_Goodwood>** No.
02:33:44 **<Darth_Culator>** No. Teh bad.
02:33:45 **<GreenTentacle>** No.
02:33:45 **<jSarek>** Impossible, no.
02:33:46 **<Havac>** Waste of effort.
02:33:47 **<AdmirableAckbar>** No

02:33:49 **<LucidFox>** Imperialles> Why?
02:33:50 **<LtNOWIS>** Print? This isn't the 1800s.

02:33:53 **<Enochf>** You can't instantly rewrite print
02:33:53 **<The4dotelipsis0>** Yes.
02:34:01 **<Ataru>** A dumb idea considering that we change our articles extremely often
02:34:01 **<Graestan>** -v*
02:34:02 **<Darth_Culator>** We couldn't even realistically do a CD.
02:34:04 * ChanServ gives voice to DarthRambo
02:34:05 **<Ataru>** That's the idea of wikis, no?
02:34:13 **<Ozzel>** Why would we even need it?
02:34:16 **<Enochf>** If a Wiki was a book, it'd be a book. It ain't.
02:34:19 **<The4dotelipsis0>** Wikipedia are putting together a print version.
02:34:25 **<jSarek>** It'd be illegal to sell it, even to recoup the cost of printing. It's a money-loser for a group that has no money.
02:34:29 **<Ataru>** Heck, (tooting my own horn here), Mara Jade in June is not Mara Jade's article now
02:34:30 **<Darth_Culator>** WANW.
02:34:31 **<Havac>** Quite.
02:34:32 **<Jedi_Goodwood>** I think we've got consensus, Imp.
02:34:32 **<Graestan>** No CD, bad.
02:34:49 **<LucidFox>** jSarek> We can put in online.
02:34:51 **<Imperialles>** Consensus is to not pursue a printed Wookieepedia at this time.
02:34:52 **<Havac>** We're nowhere near having things good enough to even consider a stable version.
02:34:53 **<The4dotelipsis0>** Ataru: I think people can figure out that a CD doesn't update itself.
02:34:54 **<LucidFox>** So people can print it on demand.
02:34:55 **<The4dotelipsis0>** Geez.
02:35:08 **<Ataru>** Resurrecting this idea should be prohibited
02:35:09 **<Havac>** What the hell good is putting it print and then putting it online?
02:35:10 **<jSarek>** Sikon: Then it's not a print edition.
02:35:12 **<Ataru>** It's been shot down before
02:35:13 **<Ozzel>** If people want to print something, they can print it.
02:35:14 **<LucidFox>** And periodically update the CD.
02:35:16 **<Ataru>** Bah!
02:35:16 **<Havac>** How about we just leave it online to begin with?
02:35:20 **<Ataru>** Per Havac

02:35:38 **<Graestan>** Yes
02:35:38 **<Darth_Culator>** Dot?
02:35:39 * Gonk needs more explanation of this concept
02:35:39 **<LtNOWIS>** We already have "Printable version" on the side of every page.
02:35:39 **<jSarek>** Reject.

02:35:41 **<Imperialles>** Establish WookieeProject Assessment.
02:35:43 **<The4dotelipsis0>** Yes.

02:35:44 **<Enochf>** Asssssssssssessssss?
02:35:45 **<Jedi_Goodwood>** Assess? Assess what? And for what?
02:35:45 **<The4dotelipsis0>** Assessment.
02:35:47 **<Grey-man>** Yes, more explanation
02:35:51 **<The4dotelipsis0>** No, it's not a WookieeProject.
02:35:51 **<Havac>** We already agreed on this.
02:35:52 **<AdmirableAckbar>** Yes
02:35:53 **<Ataru>** Wikipedia has this, right?
02:35:56 **<Graestan>** Please specify and/or link.
02:35:56 **<LtNOWIS>** See Wikipedia's assessment pages.
02:35:58 **<The4dotelipsis0>** It's something put into all WookieeProjects.
02:35:59 **<Enochf>** Like, what, rank 1 to 10?
02:36:01 **<The4dotelipsis0>** No.
02:36:07 **<The4dotelipsis0>** Stub, Start, B, GA, FA.
02:36:10 **<Ataru>** Stub-class, GA-class, FA-clas etc.
02:36:11 **<AdmirableAckbar>** ah
02:36:12 **<Havac>** Imp had a proposal just like this that went through a mofference almost a year ago.
02:36:12 **<Ataru>** Heh
02:36:18 **<Havac>** He just hasn't implemented it yet.
02:36:19 **<Ataru>** Meh
02:36:20 **<LtNOWIS>** http://en.wikipedia.org/wiki/Wikipedia:Version_1.0_Editorial_Team/Assessment
02:36:21 **<ChackJadson>** I don't like this idea
02:36:24 **<Enochf>** Lovely. More categories to argue over.
02:36:25 **<jSarek>** I hate how every talk page on Wikipedia is a blue link because someone slapped up an Assessment or Project template.
02:36:25 **<Ataru>** I'm extremely indifferent to it
02:36:29 **<Enochf>** And then vote about arguing over.
02:36:38 **<Imperialles>** We can't have assessment for individual WProjects. We don't have enough active WProjects.
02:36:40 **<Ataru>** We have plenty to do already without this
02:36:41 **<LucidFox>** Enochf> No voting.
02:36:43 **<Grey-man>** I say No to this
02:36:48 **<Ataru>** I say No
02:36:49 **<Havac>** It's more work than we need.
02:36:51 **<Jedi_Goodwood>** Reject.
02:36:52 **<Imperialles>** It would have to be general assessment from a general WProject
02:36:53 **<AdmirableAckbar>** No
02:36:54 **<Gonk>** Agreed
02:36:54 **<The4dotelipsis0>** It's hardly work.
02:36:55 **<Enochf>** N-O
02:36:56 **<jSarek>** And assessment itself is pointless. All articles need improvement, and usually the amount needed is pretty obvious.
02:36:57 **<Jedimca0>** Reject
02:37:00 **<Ataru>** Not because it's a bad idea in general, but it's too much stuff to do

02:37:06 **<The4dotelipsis0>** Too much stuff?
02:37:07 **<Gonk>** Per Ataru
02:37:08 **<Ataru>** Yes
02:37:10 **<The4dotelipsis0>** It's very, very easy.
02:37:11 **<Jedi_Goodwood>** Pointless per jSarek. Reject.
02:37:12 **<Ataru>** Bah!
02:37:15 **<Gonk>** Maybe revisit this in a few years :)
02:37:19 **<Darth_Culator>** If we had a jillion articles like Wikipedia, it might be more sensible.
02:37:20 **<Havac>** Per Gonk.
02:37:23 **<Graestan>** per jSarek, Gonk
02:37:25 **<Havac>** And per Culator.
02:37:25 **<Ataru>** A jillion?
02:37:26 **<Ozzel>** I still like the idea. No one is forcing you to asses.
02:37:31 **<LucidFox>** Just because YOU don't want to take this "work" doesn't mean somebody else won't.
02:37:33 **<Ozzel>** *asses. :-p
02:37:36 **<Ataru>** Bah!
02:37:36 **<Darth_Culator>** Forcing their asses?

02:37:37 **<SillyDan>** A jillion articles and a jillion contributors, you mean
02:37:40 **<The4dotelipsis0>** Other people will do this.
02:37:41 **<Ozzel>** *sasess Bah!
02:37:46 **<Ozzel>** *ASSESS!
02:37:48 **<Darth_Culator>** Once more!
02:37:51 * Jedi_Goodwood is an Eventualist anyway.
02:37:52 **<Gonk>** Sussussudio
02:37:52 **<LtNOWIS>** Sourcing never forced me to source.
02:37:52 **<Ataru>** It redirects user attention from improving articles to more talk
    page nonsense
02:38:01 **<LucidFox>** Per LtNOWIS.
02:38:01 **<The4dotelipsis0>** ...
02:38:03 **<Enochf>** Per Gonk
02:38:03 **<Imperialles>** I think this is best suited for a CT.
02:38:06 **<jSarek>** Per Ataru.
02:38:07 **<The4dotelipsis0>** You fail to understand it, then.
02:38:08 **<Graestan>** I am against Talk Page Lawyering.
02:38:09 **<GreenTentacle>** Per Imp.
02:38:13 **<AdmirableAckbar>** Per Imp
02:38:16 **<The4dotelipsis0>** It's not talk page lawyering.
02:38:16 **<Graestan>** per Ataru
02:38:19 **<Ataru>** Per Imp, let's shoot it down elsewhere
02:38:20 **<Darth_Culator>** I am against all lawyers.
02:38:20 **<LucidFox>** There will be no lawyering.
02:38:22 **<The4dotelipsis0>** It's bloody article assessment.
02:38:23 **<Enochf>** Per se
02:38:27 **<Ataru>** Shoot it down elsewhere
02:38:28 **<Enochf>** Per anum
02:38:32 **<Havac>** Kill it.
02:38:33 **<The4dotelipsis0>** Take it to CT.
02:38:35 **<Havac>** Kill it now.
02:38:36 **<Imperialles>** Shot down, discussion may be continued in CT.
02:38:40 **<Ataru>** Kill it both times!
02:38:41 **<Ataru>** :-)
02:38:42 **<Jedi_Goodwood>** Good.

02:38:45 **<Imperialles>** Suggestion: the "did you know" feature would be much more
    interesting and helpful if it did not adhere to the "only new articles" rule
    acquired from Wikipedia. There are plenty of fascinating things from old articles
    that could be used to draw mainstream attention. I say change! Change now! Enochf

02:38:55 **<Havac>** Why not?
02:38:56 **<Grey-man>** I've been thinking this for a while...Yes

02:38:59 **<ChackJadson>** Adopt
02:38:59 **<Jedimca0>** I agree
02:38:59 **<Graestan>** Adopt.
02:38:59 **<Enochf>** Yes (obviously)
02:38:59 **<Imperialles>** No need for a specific rule. Simply make exceptions from time
    to time for non-new articles.
02:39:00 **<Darth_Culator>** Needs moderation.
02:39:01 **<The4dotelipsis0>** HOWEVER.
02:39:04 **<The4dotelipsis0>** Needs moderation.
02:39:06 **<Gonk>** It would become a free-for-all much like IDrive is now
02:39:09 **<The4dotelipsis0>** Anyone can just do whatever.
02:39:11 **<AdmirableAckbar>** Per 4dot
02:39:15 **<Ozzel>** I like keeping it restricted to new articles, unless we had some way
    to differentiate new articles from old articles with new content.
02:39:28 **<Gonk>** How about DYK box split in two parts
02:39:30 **<Gonk>** Top part: new content
02:39:32 **<The4dotelipsis0>** Nope.

02:39:32 **<Enochf>** The comics are "new" to most new visitors here

02:39:48 **<Imperialles>** Our main page is cluttered enough as it is.
02:39:49 **<Graestan>** Less complication on the Main Page, per Imperialles
02:39:49 **<Havac>** So it shifts quicker.
02:39:50 **<Jedi_Goodwood>** LOL SD
02:39:51 **<Enochf>** A lot of people aren't familiar with, say, the X-wing series until they start surfing

02:41:09 **<Gonk>** Havac, I'm not worried about them taking advantage so much as adding stupid shit.
02:41:12 **<Enochf>** Aw

02:42:18 **<Havac>** Just, if anyone adds, "Did you know Luke Skywalker destroyed the

Death Star?" you revert it.
02:42:19 **<Gonk>** Adopt with moderation
02:42:21 **<LucidFox>** Maybe we can remove DYK altogether?
02:42:21 **<Jedi_Goodwood>** Ace!
02:42:23 **<Havac>** That's all the guideline we need.
02:42:25 **<LtNOWIS>** But than, if it's not new, what is the point of it at all?
02:42:35 **<AdmirableAckbar>** Per Havac
02:42:39 **<Graestan>** Can someone specific with good judgment be given DYK
      responsibility?
02:42:40 **<The4dotelipsis0>** NOWIS: Obscurity.
02:42:42 **<Ozzel>** Eh, keep DYK, and keep it for new articles only.
02:42:42 **<JMAS>** I agree with Gonk, adopt with moderation

02:42:48 * Imperialles has changed the topic to: Yes, this is the Mofference | The
      channel is moderated. Spammers will be devoiced. | Current topic: 3RR
02:42:53 **<Imperialles>**   1. 3RR/edit war policy - Some users continuously walk the
      line, engaging in "cold" edit warring and similar tactics for avoiding official
      rebuke. In some cases, edit summaries indicate the lack of civility and respect
      involved. Adherence to the letter of the law leads to some users feeling
      outnumbered and alienated. Perhaps a more case-by-case approach would be helpful.
      - Graestan (This party's over) 06:01, 30 August 20
02:42:53 **<Imperialles>** 07 (UTC)
02:43:02 **<Grey-man>** Indeed
02:43:03 **<Imperialles>** The case-by-case approach sounds good.
02:43:07 **<Havac>** It's already established to be a guideline.
02:43:11 **<The4dotelipsis0>** I'd like it to be a 2RR, TBH.
02:43:12 **<Jedi_Goodwood>** Adopt.
02:43:13 **<LucidFox>** There is no "law".
02:43:14 **<Graestan>** I saw that case-by-case has been proposed...
02:43:19 **<Graestan>** But not exactly enforced.
02:43:22 **<Imperialles>** It's a guideline?!
02:43:22 **<Enochf>** I may not know how to define cold warring, but I know it when I see
      it ^_^
02:43:27 **<Grey-man>** Yes, this needs to be discussed and clarified since there are an
      alarming number of users who abuse the current policy and revert edits just enough
      so they don't get blocked; or they revert the edit in question while making
      general blanket edits hoping it will not be recognized. Graestan raises some
      interesting points.
02:43:33 **<The4dotelipsis0>** After the first one, it's just a disruption.
02:43:36 **<Graestan>** Rulewanking doesn't help in this more essential issue.
02:43:36 **<Grey-man>** (from the Moff page ;))
02:43:37 **<Havac>** Honestly, you can see what's clearly an edit war, but someone stops
      at 3 and they get off free.
02:43:39 **<Havac>** That's not right.
02:43:40 **<LucidFox>** Grey-man> This is "gaming the system".
02:43:48 **<LucidFox>** And it's covered on WP:POINT.
02:43:48 **<AdmirableAckbar>** Per Havac
02:43:52 **<The4dotelipsis0>** McEwok and Jack got into a multi article Cold Edit War.
02:43:59 **<The4dotelipsis0>** I wish I could've banned both of them on the spot.
02:44:03 **<Jedi_Goodwood>** Hypermeticulous ruleswankery!
02:44:11 **<Ataru>** Yeah, WP:POINT covers this, but no need to get extreme with more
      rules
02:44:16 **<fiolli>** i think 3rr is enough - any more and there should be a talk
02:44:16 **<Jedimca0>** Per Havac
02:44:18 **<Darth_Culator>** We like rules.
02:44:21 **<LtNOWIS>** We shouldn't have to say that they shouldn't violate the spirit of
      the law.
02:44:21 **<Grey-man>** LucidFox > Yes, I'm well aware of that
02:44:22 **<Graestan>** Jack in particular has been bad. It's discouraging to new users,
      and less established ones.
02:44:30 **<Havac>** Jack in particular, yes.
02:44:31 **<Graestan>** He cannot be allowed to "guard" articles.
02:44:32 **<Ataru>** Heh
02:44:35 **<jSarek>** The thing is, a small number of reverts are sensible when reasoning
      is in the edit history.
02:44:38 **<Ataru>** I "guard" articles
02:44:39 **<The4dotelipsis0>** Neither can McEwok.

02:44:40 **<Ataru>** Somewhat
02:44:44 **<Jedi_Goodwood>** Per Graestan.
02:44:46 **<The4dotelipsis0>** I don't care who's right.
02:44:48 **<Havac>** He's supposed to be banned permanently the next time he edit wars.
02:44:51 **<Graestan>** You're not mean about it, Ataru.
02:44:54 **<The4dotelipsis0>** Wait, wait, I just thought up something.
02:44:54 **<Imperialles>** Topic, guys.
02:45:02 **<Havac>** Instead, he keeps edit-warring but stopping at three, and so no one does anything.
02:45:02 **<Ataru>** Topic is policy
02:45:03 **<fiolli>** is there something that can be put in the "rules" about "guarding" ?
02:45:04 **<The4dotelipsis0>** If an edit war between two users is carried over to another article...
02:45:05 **<Ataru>** Not rule violator
02:45:08 **<Ataru>** *s
02:45:17 **<Ataru>** No, bad idea 4dot
02:45:26 **<Graestan>** Case-by-case, and someone really needs to step up to the plate on this one, for once.
02:45:28 **<The4dotelipsis0>** Why don't we make it 3RR, but not exclusive to the original article, and dependent on time frae.
02:45:28 **<SillyDan>** If it's an edit war over the same principle, I'd aggree 4dot. It would still count.
02:45:30 **<The4dotelipsis0>** *frame.
02:45:30 **<Havac>** I'm putting him forth as a case study.
02:45:33 **<Imperialles>** Per Graestan.
02:45:41 **<Ataru>** Meh
02:45:41 **<Imperialles>** Havac: Well, don't.
02:45:43 **<jSarek>** fiolli: Generally, "guarding" isn't a bad thing; it's the whole point of watch lists. It's just some users abuse the act.
02:45:55 **<Jedimca0>** Per Graestan.
02:45:55 **<Gonk>** Nebulax doesn't guard. He cyberstalks.
02:45:59 **<Graestan>** Indeed.
02:46:00 **<Grey-man>** I tend to want to lean to the "Case by case" approach
02:46:04 **<Imperialles>** Gonk, watch it.
02:46:05 **<AdmirableAckbar>** Per Grae
02:46:06 **<The4dotelipsis0>** So, basically, I think we should apply the rules even if it is taken to another article.
02:46:08 **<Ataru>** Next to person to use names gets muted
02:46:09 **<Havac>** Anyway, we need more room for discretion.
02:46:15 **<Havac>** If it's clearly edit-warring, it should get penalties.
02:46:16 **<The4dotelipsis0>** Wherever the third revert is, we ban.
02:46:17 **<Ataru>** I think current policy works
02:46:18 **<Enochf>** Ah. No names. ^_^
02:46:21 **<The4dotelipsis0>** As long as it's the same principle.
02:46:23 **<Graestan>** Ataru> Names?
02:46:26 **<Ataru>** User names
02:46:28 **<JMAS>** A wookieestalker eh? LOL
02:46:29 **<Enochf>** We shall speak behind the back of He/She Who Shall Not Be Named.
02:46:30 **<The4dotelipsis0>** Any takers on that idea?
02:46:33 **<Havac>** We shouldn't have to count edits and rules-lawyer it.
02:46:40 **<Gonk>** *stalks articles, not people. Sheesh
02:46:42 **<Ataru>** 3RR is a general principle
02:46:44 **<fiolli>** per 4dot
02:46:48 **<Gonk>** per Havac
02:46:49 **<Jedi_Goodwood>** Voldemort?
02:46:51 **<AdmirableAckbar>** Per Havac
02:46:54 **<AdmirableAckbar>** topic
02:46:55 **<Ataru>** As such, it already describes 4dot's scenario
02:47:01 **<Havac>** 3RR is a guideline, but it's being treated as a hard rule.
02:47:02 * LO|Away smiles and nods
02:47:03 **<Imperialles>** Although consensus seems to lean towards case-by-case, I suggest we rather discuss this in a CT.
02:47:06 **<JMAS>** I knew what ya meant, but it still sounded funny Gonk :)
02:47:06 **<Havac>** That should stop.
02:47:09 **<The4dotelipsis0>** So I should have banned McEwok and Jack...
02:47:17 **<Ataru>** Violating the spirit of 3RR is grounds for block (within reason)

02:47:19 **<jSarek>** I like it as a hard rule. I like having a bright line to point to when I punish someone.
02:47:20 **<Graestan>** The current system is not preventing the users in question from continuing their nonsense.
02:47:21 **<LO|Away>** Scratch the smiling
02:47:27 **<Havac>** I don't.
02:47:27 **<The4dotelipsis0>** Yep.
02:47:32 **<The4dotelipsis0>** Tangible rules for banning.
02:47:36 **<The4dotelipsis0>** Otherwise you get inconsistence.
02:47:38 **<LO|Away>** The spirit of 3RR...
02:47:38 **<The4dotelipsis0>** *y
02:47:38 **<Ataru>** I prefer it as a hard line
02:47:40 **<Havac>** Because then people stop just short of the line, knowing exactly what they're doing.
02:47:45 **<Enochf>** The spirit of 3RR also struck me ^_^
02:47:45 **<The4dotelipsis0>** One man's banning might be another one's warning.
02:47:50 **<Graestan>** per Havac
02:47:51 **<Ataru>** However, I've stretched the spirit of 3RR on occasion
02:47:51 **<Grey-man>** Exactly
02:47:55 **<Ataru>** To allow for case-by-case
02:47:57 **<Havac>** It's already established as a matter of spirit.
02:48:03 **<Havac>** That's in the rules right now.
02:48:04 **<Ataru>** No rule needed then
02:48:05 **<Gonk>** Doesn't it all come down to the banning admin's discretion anyway?
02:48:07 **<Ataru>** Yes
02:48:09 **<Enochf>** A matter of spirit...
02:48:10 **<Graestan>** Case-by-case is all I'm proposing.
02:48:14 **<Enochf>** You must feel the 3RR all around you...
02:48:15 **<Ataru>** Case-by-case works for me
02:48:17 **<Havac>** Case-by-case.
02:48:19 **<Jedi_Goodwood>** Here's an idea: More then one three-revert a day and sanctions are made.
02:48:21 **<Enochf>** Case by case, OK
02:48:24 **<Grey-man>** Yes to Case by case
02:48:24 **<Imperialles>** Case-by-case it is.
02:48:26 **<AdmirableAckbar>** Case-by-case
02:48:27 **<fiolli>** i prefer the hard line - but there can be a petition to allow case-by-case if needed
02:48:35 **<The4dotelipsis0>** Ban on sight, personally.
02:48:36 **<Jedi_Goodwood>** Case-by-case.
02:48:37 **<Enochf>** Stricter than now, please
02:48:40 **<JMAS>** Yeah, case by case
02:48:41 **<Imperialles>** Now. I am going to skip the nezt agenda item, because it's really dumb.
02:48:43 **<The4dotelipsis0>** Yeah, far stricter.
02:48:45 **<Imperialles>** next*
02:48:45 **<jSarek>** Eh, if someone breaks the 3RR, I want the discretion to punish on the spot.
02:48:46 **<Enochf>** But not totally hard & fast
02:48:49 **<The4dotelipsis0>** People are gaming the system.

02:49:08 **<AdmirableAckbar>** Hi 1996
02:49:09 **<Enochf>** I don't like this one. No.

02:49:16 **<The4dotelipsis0>** Hello Jorrel.
02:49:18 **<Ataru>** Whoever's pretending to be SK1996, it's not funny
02:49:20 * Imperialles has changed the topic to: Yes, this is the Mofference | The channel is moderated. Spammers will be devoiced. | Current topic: Single issue voters
02:49:20 **<Imperialles>** Forum:Single issue voters: I liked the theory, didn't like the number imposed, as it's prevented several people from voting on things. Also, I'd prefer a more concrete definition of what votes it has jurisdiction over, as well as an actual voting policy instead of a closed thread. Atarumaster88 (Talk page) 14:32, 31 August 2007 (UTC)
02:49:27 * Imperialles has kicked Starkiller1996 from #wookieepedia (Imperialles)
02:49:33 **<LtNOWIS>** It's already in the preferences.
02:49:35 **<Imperialles>** I would like to see a more specific proposal.
02:49:35 **<Enochf>** This rule has made QOTD much easier to police.
02:49:36 **<Havac>** What's the problem, Ataru?
02:49:38 **<fiolli>** i say no - its not needed
02:49:44 **<Enochf>** But I might like to see the number reduced to 25
02:49:45 **<The4dotelipsis0>** What's this?
02:49:46 **<The4dotelipsis0>** Meh.
02:49:47 **<Darth_Culator>** I love it as is.
02:49:48 **<The4dotelipsis0>** I care little.
02:49:50 **<Ataru>** I think people are being denied to vote on things like TC despite being good faith contributors
02:49:51 **<The4dotelipsis0>** Instruction creep.
02:49:52 **<The4dotelipsis0>** No.
02:49:53 **<Havac>** I like it the way it is.
02:49:55 **<Graestan>** Warnings.
02:49:56 **<LucidFox>** Per Fourdot.
02:49:57 **<Ataru>** Or on CT
02:49:57 **<The4dotelipsis0>** There will be no change.
02:49:58 **<LO|Away>** Ataru seems...pissed today.
02:49:58 **<AdmirableAckbar>** Per Havac
02:49:59 **<Ataru>** etc.
02:50:01 **<LucidFox>** No arbitrary numbers.
02:50:02 **<Havac>** Ataru: then they can edit more.
02:50:03 **<Grey-man>** Yes to the current policy
02:50:07 **<Havac>** It's not a problem.
02:50:08 **<Grey-man>** Yes
02:50:11 **<AdmirableAckbar>** Yes
02:50:12 **<jSarek>** Per Havac.
02:50:13 **<Enochf>** How about the concrete definition of which forums?
02:50:14 **<Ataru>** I support moving it down to 25 . . .
02:50:17 **<Enochf>** QOTD is now covered. What else is?
02:50:18 **<Jedi_Goodwood>** No vote.
02:50:19 **<Havac>** They have no inborn right to vote.
02:50:20 **<Enochf>** FA?
02:50:25 **<The4dotelipsis0>** Actually...
02:50:25 **<Gonk>** Clarification of what it applies to could be good.
02:50:26 **<Ataru>** AFAIK, it's applicable to QOTD and CT and TC
02:50:27 **<Graestan>** per Enochf
02:50:31 **<Ataru>** What else does it apply to?
02:50:32 **<LtNOWIS>** Yes.
02:50:33 **<Ataru>** ID?
02:50:35 **<Ataru>** GA?
02:50:36 **<GreenTentacle>** Current policy is wrong.
02:50:37 **<Ataru>** FA?
02:50:39 **<LtNOWIS>** I believe so.
02:50:41 **<The4dotelipsis0>** We've ruled out votes by people who have gone on to be established users.
02:50:42 **<Havac>** Apply to everything.
02:50:50 **<The4dotelipsis0>** So this whole idea is pretty much up the duff.
02:50:53 **<Darth_Culator>** This is not, thankfully, the USA, where any idiot gets to vote as long as they can breathe.
02:50:54 **<GreenTentacle>** We should stop people who only vote, not have some arbitrary

number before you can vote.
02:50:54 **<jSarek>** It applies to everything that's not a fun promotional vote like the Miss Wookieepedia pageants.
02:50:57 **<Enochf>** Granted, but I've got retroactive granting of votes once they reach the requirement.
02:51:01 **<fiolli>** i could support 25 if needed, but 50 would be prefer'd
02:51:02 **<LtNOWIS>** QOTD is like the bottom of the voting barrell, and we said it applied to that.
02:51:11 **<Ataru>** Heh, so it goes for everything then?
02:51:13 **<Ataru>** That works for me
02:51:20 **<AdmirableAckbar>** Me too
02:51:26 **<LucidFox>** Per GT.
02:51:27 **<Ataru>** Keeps it simple
02:51:29 **<jSarek>** I do think I support a lowering though.
02:51:31 **<Havac>** It doesn't matter if they go on to become a good user.
02:51:33 **<The4dotelipsis0>** Instruction Creep.
02:51:36 **<Ataru>** I support lowering to 25

02:51:44 **<Enochf>** What's the yay/nay on lowering to 25?
02:51:46 **<Enochf>** Yay
02:51:46 **<Jedi_Goodwood>** Damn you and your creeps!
02:51:47 **<Grey-man>** No

02:51:48 **<AdmirableAckbar>** Nay
02:51:48 **<Ataru>** It's not instruction creep- it's already policy with an amendment

02:52:25 **<Jedi_Goodwood>** Agreed.
02:52:26 **<jSarek>** Instruction Creep Is Not A Bad Thing In And Of Itself.
02:52:30 **<fiolli>** nay
02:52:30 **<Imperialles>** Consensus seems to be "Don't lower, but apply to everything"
02:52:31 **<JMAS>** I say keep number as is, and have it ccover all votes
02:52:31 **<Ataru>** 9_9
02:52:34 **<Ataru>** Okay
02:52:36 **<Enochf>** Attack of the Instruction Creep

02:52:54 **<Imperialles>** Blocking policy issues: If a user adds fanon and gets a 1 day block, then has good behavior, then three months later breaks WP:NPA, is it a second or first offense for the NPA? Bear in mind time elapsed and the separate categories of offenses. Atarumaster88 (Talk page) 14:35, 31 August 2007 (UTC)
02:52:54 **<Jedi_Goodwood>** The fanoneer has quit.
02:52:54 **<Havac>** If it doesn't, it should.
02:52:55 **<jSarek>** JMAS: Some votes are meant basically as recruiting tools, though.
02:52:57 **<Enochf>** Except maybe the Mister/Miss Star Wars thing
02:53:00 **<fiolli>** even as a relatively new person her i say keep it up to 50

02:53:17 **<Jedi_Goodwood>** I'm not in favor of cumulative sanctions.
02:53:17 **<Ozzel>** Leave it up to the admin.
02:53:18 **<Enochf>** Mmm... I still think it counts as a second offense.
02:53:19 **<The4dotelipsis0>** Second offence.
02:53:21 **<Imperialles>** Up to the admin.
02:53:24 **<GreenTentacle>** Per Ataru.
02:53:26 **<Havac>** Leave it at admin discretion.
02:53:29 **<Gonk>** Up to the admin, no policy
02:53:30 **<Darth_Culator>** As is.
02:53:33 **<Grey-man>** Discretion of the blocking admin
02:53:36 **<Havac>** If it's part of a general pattern of behavior, allow it to be counted.
02:53:37 **<Jedi_Goodwood>** Per Ataru - allow for time elapsed.
02:53:42 **<Enochf>** I don't know if I trust admins not to give certain individuals too much leeway.
02:53:44 **<Ataru>** And for separate issues . . .
02:53:48 **<Jedimca0>** Per Ataru
02:53:49 **<Havac>** If it's totally unrelated, treat it that way.
02:53:51 **<SillyDan>** Blocking policy: Yes, it's a second offense. But admins, as usual, can use discretion, account for time elapsed, etc.
02:53:53 **<Ozzel>** If it's an issues, the admins can confer.
02:53:57 **<Graestan>** per Greyman, we elect admins for a reason
02:54:02 **<LtNOWIS>** Discretion isn't going anywhere.
02:54:03 **<LucidFox>** I'd say "up to the admin", but Culator...
02:54:04 **<Darth_Culator>** Damn right.
02:54:05 **<Ataru>** I used fanon and WP:NPA as two different offenses . . .

03:09:26 **<AdmirableAckbar>** Remove boxes
03:09:28 **<fiolli>** kill them
03:09:29 **<LucidFox>** "Use of boxes"?
03:09:30 **<Jedi_Goodwood>** Kill the boxes - and the ones on Palpatine too.
03:09:31 **<LucidFox>** What boxes?
03:09:31 **<Ataru>**
   http://starwars.wikia.com/index.php?title=Conan_Antonio_Motti&oldid=1522772
03:09:35 **<JMAS>** But I'm all for removing the middle name from the article title
03:09:36 **<Graestan>** Kill all boxes
03:09:40 **<Ataru>** Kill those foolish boxes
03:09:42 **<LucidFox>** By the way, I like them.
03:09:43 **<The4dotelipsis0>** JMAS: That too.
03:09:46 **<Enochf>** Ew. Those are terrible.
03:09:47 **<jSarek>** Flavor quotes to start off headers, maybe texts of important
   documents, but quote interludes in text should die in any form.
03:09:47 **<Darth_Culator>** No.
03:09:49 **<Lord_Oblivion>** What the hell are we talking about now?
03:09:50 **<Enochf>** Kill zem
03:09:52 **<Havac>** JMAS: Hell no.
03:09:53 **<Ozzel>** Are the not a possible copyright problem?
03:09:56 **<Ozzel>** *they
03:09:57 **<Havac>** It's the full name.
03:09:58 **<Darth_Culator>** FULL NAMES. But that's not the topic.
03:09:59 **<Graestan>** They are.
03:10:01 **<Ataru>** Some quotes in text- fine. But not all that stuff
03:10:04 **<Havac>** There's no reason not to put it in the title.
03:10:12 **<Ataru>** I'll even allow a prose quote for a good reason
03:10:13 **<The4dotelipsis0>** Kevin Jackass Anderson, then.
03:10:16 **<Ataru>** Not all that stuff
03:10:20 **<jSarek>** Ozzel: Not in short bits that illustrate the topic. They're fair
   use, just obnoxious.
03:10:22 **<Ataru>** Mute 4dot and Darth_Culator
03:10:23 **<DarthRambo>** c'mon, be nice
03:10:29 **<Imperialles>** Can't this be discussed on the article's talk page?
03:10:38 **<SillyDan>** More a stylistic question for Inqs and GA voters, isn't it?
03:10:44 **<Ataru>** Perhaps
03:10:44 **<Imperialles>** Per Dan.
03:10:45 **<Ozzel>** It's not one article. It's about using them anywhere.
03:10:47 **<DarthRambo>** i agree
03:10:47 **<Ataru>** It could be MoS
03:10:47 **<Imperialles>** Let's skip this.
03:10:48 **<The4dotelipsis0>** Not really.
03:10:51 **<Havac>** No random quotes in text.
03:10:53 **<The4dotelipsis0>** We can just nip them in the bud here.
03:10:55 **<Ataru>** I disagree with skip
03:10:57 **<Darth_Culator>** I thought we already had a policy about this.
03:11:00 **<The4dotelipsis0>** Wipe thme out.
03:11:00 **<Graestan>** Skip, leave to Inq and Inq-wannabes like me
03:11:03 **<The4dotelipsis0>** Damn.
03:11:04 **<Ataru>** Quotes in text = maybe; text boxes = 0
03:11:04 **<Jedi_Goodwood>** Kill the boxes.
03:11:09 **<Lord_Oblivion>** No random quotes in text.
03:11:10 **<Darth_Culator>** Just make sure to interpret it to kill boxes too.
03:11:15 **<Jedi_Goodwood>** Actually, per Graestan.
03:11:19 **<ChackJadson>** Per Ataru
03:11:19 **<Havac>** Consensus is to kill the boxes.

03:11:21 **<Ataru>** Random quotes in text are sometimes useful . . . but rarely
03:11:26 **<JMAS>** Sorry, misunderstood what the topic of Motti's article was.
03:11:30 **<Ataru>** Because they're not random!
03:11:32 **<Ataru>** :-P
03:11:35 **<Gonk>** I don't care about quotes within the text. I just don't want the boxes.
03:11:37 **<Enochf>** Boxes like that may work in an RPG supplement, not here.
03:11:38 **<LtNOWIS>** We have too many quotes in general.
03:11:39 **<The4dotelipsis0>** They're unacceptable.
03:11:41 **<JMAS>** I personally am not fond of the quote boxes
03:11:49 **<Gonk>** And as I understand it, Jorrel's proposal was just about the boxes, not their content.
03:11:50 **<Ataru>** Consensus sez kill boxes
03:11:51 **<DarthRambo>** die boxes!
03:11:53 **<GreenTentacle>** Nobody likes them.
03:11:55 **<Darth_Culator>** Moving on.
03:11:57 * Imperialles has changed the topic to: Yes, this is the Mofference. | The channel is moderated. Spammers will be devoiced. | Current topic: Weasel words in MOS
03:11:57 **<GreenTentacle>** Let's move on.
03:11:58 **<jSarek>** People differ on quotes, but everyone seems to want the boxes gone.
03:12:00 **<Imperialles>**   1. Removing weasel words from our American English policy. Gonk (Gonk!) 19:58, 2 September 2007 (UTC)
03:12:06 **<GreenTentacle>** Bah!
03:12:06 **<AdmirableAckbar>** Yes
03:12:06 **<Imperialles>** For removing weasel words. No more Britishisms.
03:12:07 **<LtNOWIS>** Support
03:12:07 **<LucidFox>** Eh?
03:12:08 **<jSarek>** Gonk: Examples?
03:12:09 **<Enochf>** Define yourself Gonk
03:12:09 **<Graestan>** Support
03:12:09 **<Darth_Culator>** Gonk?
03:12:11 **<LucidFox>** Gonk, explain
03:12:12 **<Lord_Oblivion>** I like the boxes when we post an IU document
03:12:13 **<Ataru>** Gonk?
03:12:14 **<Ozzel>** I don't like weasels or their words.
03:12:16 **<LtNOWIS>** http://starwars.wikia.com/wiki/WP:MOS#Usage_and_spelling
03:12:17 **<GreenTentacle>** This is just an excuse to force incorrect grammar on us.
03:12:22 **<Enochf>** Weasels ripped my flesh. RIZZZZZ
03:12:24 **<Gonk>** ahem
03:12:29 **<DarthRambo>** ahhhhhh!
03:12:31 **<LtNOWIS>** Basically, we already enforce American English.
03:12:31 **<Gonk>** Some interpret the policy's current phrasing to mean "use British English if you really want to, and we shouldn't revise it later to be American." That's sloppy. We need to be consistent, and just as the Harry Potter Wiki uses British English for a good reason, ours needs to use (and explicitly enforce) American English.
03:12:33 * Imperialles removes voice from DarthRambo
03:12:40 * ChanServ gives voice to Enochf
03:12:45 **<Imperialles>** Per Gonk.
03:12:47 **<Graestan>** per Gonk.
03:12:48 **<Jedimca0>** Remove weasel words
03:12:49 **<Ataru>** I thought we had that already
03:12:50 **<Darth_Culator>** GT hates American punctuation, I take it.
03:12:51 **<Havac>** Per Gonk.
03:12:52 **<Enochf>** I do when possible.
03:12:52 **<AdmirableAckbar>** Per GOnk
03:12:53 **<Gonk>** We did, Ataru
03:12:54 **<jSarek>** Per Gonk.
03:12:55 **<Ozzel>** Yes, speak American. ;-)
03:12:55 **<Enochf>** So, yes
03:12:58 **<Gonk>** But the phrasing can be tightened.
03:13:00 **<The4dotelipsis0>** Guh.
03:13:00 **<GreenTentacle>** If a period goes inside or outside the quotes, who gives a shit?
03:13:02 **<fiolli>** per Gonk
03:13:03 **<LtNOWIS>** The policy is phrased to say you can do it any way you want, but

that's not the reality.
03:13:03 **<The4dotelipsis0>** Grudgingly Support.
03:13:06 **<Gonk>** I do GT :)
03:13:09 **<JMAS>** Per Gonk
03:13:13 **<jSarek>** GT: I do.
03:13:16 **<GreenTentacle>** We don't need to enforce pointless rules on everything.
03:13:18 **<Ataru>** Tighten policy to enforce American English, only for consistency's sake
03:13:19 **<Enochf>** OK, so make sure the policy doesn't allow wiggle room, then?
03:13:20 * DarthRambo has quit (Remote closed the connection)
03:13:21 **<Grey-man>** Per Gonk
03:13:22 **<Gonk>** It's not a pointless rule at all.
03:13:23 **<Darth_Culator>** We like rules.
03:13:24 **<GreenTentacle>** Particularly when you're all wrong.
03:13:26 **<Havac>** Consistency!
03:13:27 **<Ataru>** Per Gonk
03:13:30 **<Gonk>** It makes us look unprofessional to be inconsistent.
03:13:31 * DarthRambo (i=83bf2837@gateway/web/cgi-irc/irc.wikia.com/x-8cf9ec9e0311e0d8) has joined #wookieepedia
03:13:32 **<Ataru>** Consistency!
03:13:34 **<SillyDan>** Sure, fix it, Gonk.
03:13:35 * Imperialles gives voice to DarthRambo
03:13:41 **<Ataru>** None of this inconsistent nonsense like on Wikipedia
03:13:45 **<LtNOWIS>** I already destroy British spelling on sight.
03:13:49 **<Ozzel>** Per... Ataru?
03:13:49 **<Ataru>** I do too
03:13:50 **<Enochf>** Especially the -ise words are very distracting.
03:13:52 **<The4dotelipsis0>** *Correct.
03:13:53 **<GreenTentacle>** It makes us look unprofessional to change a quote by inserting punctuation that doesn't belong there.
03:13:55 **<jSarek>** Per NOWIS.
03:13:56 * Jedi_Goodwood eats a weasel, then burps.
03:13:57 * The4dotelipsis0 is now known as The4dot|WC
03:14:01 **<The4dot|WC>** Not Wookiee-Cast.
03:14:04 **<fiolli>** lol
03:14:08 **<jSarek>** Water Closet?
03:14:12 **<Grey-man>** Quotes are exempt from that rule, though, no?
03:14:12 **<Ataru>** topic
03:14:14 **<Jedi_Goodwood>** lol
03:14:17 **<Enochf>** Quotes, yes
03:14:17 **<LtNOWIS>** If you have British spelling by accident, we're not going to penalize you or anything.
03:14:18 **<DarthRambo>** lol
03:14:19 **<Gonk>** Yes Grey
03:14:22 **<Ozzel>** Right, we don't touch quotes.
03:14:23 **<Darth_Culator>** We're not going to edit quotes from books just because the grammar is WRONG.
03:14:23 **<Grey-man>** Just checking
03:14:24 **<Gonk>** LtNOWIS: right
03:14:26 **<SillyDan>** Make sure you keep the exceptions for quotes, and for talk pages.
03:14:32 **<Ataru>** Yeah, we don't edit quotes or talk pages
03:14:32 **<Gonk>** noted SillyDan
03:14:33 **<jSarek>** Grey-man: Yes, and terms used in SW in a British rather than Mer'Cun fashion.
03:14:33 **<LtNOWIS>** Right.
03:14:34 **<fiolli>** i think a quote is a quote - no matter the spelling - we leave as it was written
03:14:34 **<Havac>** Yes, yes.
03:14:36 **<Enochf>** Actually, minor point, there's a quote from a Brit magazine that puts a [sic] next to a British spelling. I suggest that GOES TOO FAR.
03:14:37 **<Havac>** Next!
03:14:39 **<Imperialles>** That's already covered in the MOS.
03:14:44 **<Ataru>** Next!
03:14:46 **<GreenTentacle>** That's not what I mean.
03:14:46 * Imperialles has changed the topic to: Yes, this is the Mofference. | The channel is moderated. Spammers will be devoiced. | Current topic: 4dot and his images

03:14:47 **<LtNOWIS>** Or publisher's summaries.
03:14:52 **<GreenTentacle>** Bah!
03:14:53 **<Graestan>** Whoa
03:14:54 **<LucidFox>** Eh?
03:14:55 **<Darth_Culator>** Dot!
03:14:56 **<fiolli>** huh ?
03:14:57 **<Imperialles>** 4dot is taking a piss, so we will have to wait for him.
03:14:59 **<Jedi_Goodwood>** Huh?
03:15:00 **<Ataru>** Image stuff is already in Layout Guide
03:15:03 **<Jedi_Goodwood>** lol
03:15:03 **<Darth_Culator>** Page layout issues.
03:15:05 **<DarthRambo>** meh
03:15:05 **<Ozzel>** Put a **<!--[sic]-->** if you need to.
03:15:06 **<Ataru>** So this better be good
03:15:06 **<Jedi_Goodwood>** He's getting drunk?

03:15:14 **<Darth_Culator>** Image next to infobox=bad.
03:15:16 **<Enochf>** British spellings aren't sic!
03:15:19 **<LucidFox>** Skip topic until Fourdot returns.
03:15:22 **<Darth_Culator>** Dot wants to enforce it.
03:15:22 **<Enochf>** They're just nondstandard for 'pedia
03:15:22 **<Imperialles>** We already have a policy regarding this.
03:15:24 **<AdmirableAckbar>** Per Culator
03:15:26 **<Imperialles>**
    http://starwars.wikia.com/wiki/Wookieepedia:WookieeProject_Images/Infobox_image_po
    licy
03:15:32 **<Havac>** Let's not enforce it too madly.
03:15:33 **<Imperialles>** It was adopted at a Mofference long ago.
03:15:35 **<Darth_Culator>** Some are resisting.
03:15:36 **<Jedimca0>** Per Culator
03:15:36 **<Ozzel>** I agree. The text should be expanded to fit the images.
03:15:43 **<Enochf>** Eh?
03:15:46 **<Jedi_Goodwood>** IN a galaxy far, far away?
03:15:50 **<Havac>** If there's minor overlap, I don't see an issue.
03:15:51 **<Ataru>** I place images on the left side of the page all the time opposite
    infobox, what's wrong with that?
03:15:59 **<Havac>** But they shouldn't be squeezing things.
03:16:01 **<Graestan>** Nothing.
03:16:06 **<Graestan>** As long as it isn't ugle.
03:16:10 **<Graestan>** ugly*
03:16:11 **<jSarek>** Per Ataru.
03:16:16 **<GreenTentacle>** Per Ataru.
03:16:18 **<GreenTentacle>** http://starwars.wikia.com/wiki/TIE/D_Defender
03:16:21 **<Enochf>** I always make sure my left & right infoboxes don't interfere... on
    my screen resolution, anyway
03:16:22 **<Havac>** Per Ataru.
03:16:23 **<DarthRambo>** per ataru
03:16:24 **<Graestan>** This is basically stylistic. Leave it to Inq and FA/GA people.
03:16:25 **<Jedi_Goodwood>** I don't like using the left-right-left alteration for images
    if it messes up the section headers.
03:16:27 **<Imperialles>** We don't know what Dot was going to propose.
03:16:34 **<Darth_Culator>** Grae: I like that.
03:16:35 **<Imperialles>** So skip until he returns.
03:16:36 **<GreenTentacle>** That wouldn't work if I couldn't put the image next to the
    infobox.
03:16:37 **<Gonk>** let's wait then
03:16:37 **<Ataru>** Skip until he returns, I suppose.
03:16:46 **<SillyDan>** next?
03:16:47 **<fiolli>** per ataru
03:16:48 **<Ataru>** Even though I think it's a pointless topic, I could be surprised
03:16:51 **<Darth_Culator>** Suspended. Next.
03:16:52 **<Graestan>** Some infoboxes are impossibly long.
03:16:52 **<jSarek>** Skip until he returns.
03:16:53 **<Enochf>** Some playing WarCraft, 4dot, and participate!

03:17:09 **<Gonk>** All I really mean by this is that some users are using WP as an image-sharing site.
03:17:09 **<Lord_Oblivion>** With 4dot, you might just be.
03:17:10 **<Darth_Culator>** Kill all.

03:17:18 **<jSarek>** Totally depends on the image.

03:17:23 **<Ataru>** Depends on imge
03:17:23 **<AdmirableAckbar>** Delete them
03:17:23 **<Havac>** Depends.

03:17:26 **<GreenTentacle>** Depends on the image.
03:17:27 **<jSarek>** Sometimes it's quite relevant to discussion.
03:17:28 **<LucidFox>** Why should it even be bannable?
03:17:31 **<Ataru>** If we have pics of nekkid chix, then ban
03:17:31 **<Havac>** If you're using an image for a joke, fine.
03:17:32 **<Lord_Oblivion>** Don't care.
03:17:33 **<Gonk>** I vote case-by-case basis, admin's discretion.
03:17:35 **<fiolli>** i agree - depends
03:17:36 **<Graestan>** http://starwars.wikia.com/wiki/User_talk:Tracynsenaar#No
03:17:37 **<Imperialles>** These are already covered under the "Only 3 user images" policy
03:17:38 **<jSarek>** Other times it's recognized awards like Wookiee Cookies.
03:17:39 **<Havac>** If it's revlevant to discussion, fine.
03:17:40 **<Enochf>** Yeah.... depends. But if they're just sharing pics of their RPG characters, then ZAP 'em.
03:17:41 **<Graestan>** This is annoying.
03:17:43 **<AdmirableAckbar>** those Fandos are using Wookieepedia to contract artists
03:17:44 **<Jedimca0>** per Gonk
03:17:46 **<Ataru>** We have a policy already

03:17:50 **<Ataru>** 3 user images
03:17:50 **<Graestan>** per Gonk.
03:17:51 **<Grey-man>** It had to do with some Fandolorians making fanart and just posting it on eachtother's talkpages
03:17:51 **<Ataru>** It works
03:17:57 **<Imperialles>** We have a policy already.
03:17:57 **<Argh28>** ;) Hi Whats going on

03:18:23 **<Ataru>** Not if it's userimages
03:18:25 **<The4dotelipsis1>** Hmm?
03:18:28 **<LucidFox>** Ah.
03:18:29 **<The4dotelipsis1>** What did I miss?
03:18:30 **<Graestan>** This is a bigger problem
03:18:34 **<Enochf>** Your issue. Jeez.

03:18:35 **<LtNOWIS>** A purple lightsaber. Only to be expected from one so illustrious as Revan.
03:18:39 **<Darth_Culator>** Resume dot's item?

03:19:19 **<The4dotelipsis1>** It's fucking ugly.
03:19:23 **<Enochf>** Yup
03:19:25 **<Ataru>** Depends on resolution, no?
03:19:26 **<The4dotelipsis1>** I say remove the offending images.
03:19:27 **<Havac>** Not if it's formatted right.
03:19:34 **<Graestan>** per Havac
03:19:36 **<Gonk>** It was proposed that we leave this to FA/GA discussion
03:19:37 **<jSarek>** Per Havac.
03:19:38 **<DarthRambo>** remove anyway
03:19:38 **<AdmirableAckbar>** Depends on size of infobox
03:19:38 **<Ozzel>** Expand the text or remove the image.
03:19:39 **<Lord_Oblivion>** Depends on your scree resolution.
03:19:47 **<Ataru>** Depends on screen resolution
03:19:48 **<The4dotelipsis1>** Yep.
03:19:48 **<Enochf>** I try to carefully reshuffle & edit when I encounter that, but it's sort of a case-by-case thing, innit?
03:19:53 **<LtNOWIS>** Doesn't this fall under, "Pages should not look like crap?"
03:19:53 **<GreenTentacle>** Some infoboxes are just long and it can't be helped.
03:19:55 **<Graestan>** Size of infobox and size of image apply
03:19:57 **<The4dotelipsis1>** I'm talking a layman's screen resolution.
03:19:58 **<Ataru>** Case by case
03:19:59 **<Havac>** Case-by-case.
03:19:59 **<Imperialles>** Per NOWIS

03:20:06 **<Graestan>** per Ataru, Havac

03:20:29 **<Havac>** We don't need a rule.
03:20:30 **<The4dotelipsis1>** And so we don't have to vote every freaking time.
03:20:37 **<Havac>** The rule is it shouldn't look crappy.
03:20:38 **<Ataru>** Bah, don't need rule.
03:20:42 **<Havac>** On a reasonable resolution.
03:20:43 **<Enochf>** The prettification policy?
03:20:47 **<Imperialles>** No rule.
03:20:49 * Ataru dares mentioning the I.C word

03:21:00 **<Gonk>** No talk page discussion necessary if, on any resolution, it makes the article look crappy.
03:21:05 **<Lord_Oblivion>** Nebulax seems to have a very awkward resolution as I recall.
03:21:07 **<The4dotelipsis1>** I call elitism.
03:21:08 **<Ataru>** Common sense?
03:21:11 **<Enochf>** o/ Can't you see we're on the eve of instruction o/
03:21:13 **<Ataru>** Do we allow that?

03:21:41 **<Havac>** Yes.
03:21:41 **<jSarek>** Yeah, but we can't be expected to always cater to the lowest common denominator.
03:21:44 **<Havac>** Agree with Ozzel.
03:21:48 **<GreenTentacle>** Neither can putting the image next to the infobox.
03:21:54 **<Ataru>** I say common sense issue, assuming we're allowed to use common sense
03:21:56 **<fiolli>** 1024*768 is probably the most common now
03:21:56 **<jSarek>** Otherwise, we'd be splitting all our article for those poor folks on dialup.
03:22:05 **<Imperialles>** This borders on instruction creep. I say case-by-case basis.

03:22:42 **<Imperialles>** Links in articles: one time only vs. actually helping the reader find information. -- Ozzel 21:50, 3 September 2007 (UTC)
03:22:42 **<fiolli>** shoot, gonk
03:22:44 **<Graestan>** Links in articles?
03:22:46 **<Gonk>** How about *roughly* once per screen (assuming 1024x768)?
03:22:46 **<The4dotelipsis1>** New linking for each section.
03:22:47 **<Lord_Oblivion>** Appears fine on 1200x800
03:22:48 **<Imperialles>** One time only.
03:22:52 **<ChackJadson>** I say one per article
03:22:53 **<LucidFox>** Per Fourdot.
03:22:53 **<Ataru>** One time only
03:22:53 **<Ozzel>** Obviously, I think you know my opinion.
03:22:53 **<Havac>** Not one time only.
03:22:54 **<Imperialles>** No way, Dot
03:23:00 **<The4dotelipsis1>** Why?
03:23:00 **<Jedi_Goodwood>** One time only.
03:23:03 **<The4dotelipsis1>** How does it hurt?
03:23:03 **<Enochf>** How about instruction crêpe?
03:23:03 **<GreenTentacle>** One time only...

03:23:04 **<Grey-man>** One time per article
03:23:06 **<Havac>** If something gets changed, it makes relinking a bitch.
03:23:10 **<Ataru>** Use Ctrl+f if you really want to know
03:23:10 **<LucidFox>** Bah.
03:23:12 **<The4dotelipsis1>** Oh, boo hoo.
03:23:15 **<AdmirableAckbar>** once in intro, once in infobox, once in article
03:23:15 **<The4dotelipsis1>** Actual work.
03:23:16 **<Havac>** What does it hurt?
03:23:16 **<Ataru>** Or whatever
03:23:18 **<GreenTentacle>** But if something is called by two wildly different names let's allow a second link.
03:23:21 **<Graestan>** per Ackbar
03:23:22 **<Jedimca0>** One time per article
03:23:22 **<AdmirableAckbar>** *main body
03:23:23 **<SillyDan>** GT: yes
03:23:23 **<LucidFox>** All right. No policy.
03:23:24 **<Imperialles>** It makes the article look cluttered.
03:23:27 **<Ataru>** Per GT
03:23:30 **<LtNOWIS>** Eh... for longass articles I don't see one time helping anyone.
03:23:31 **<Darth_Culator>** Acky: That's what I've been doing on request.
03:23:31 **<Ozzel>** Not everyone uses Ctrl+F.
03:23:32 **<Ataru>** Yes, clutter
03:23:34 **<Havac>** What if a link is piped much earlier, then linked again under its actual name?
03:23:35 **<Imperialles>** Per GT.
03:23:38 **<Jedimca0>** Per AdmirableAckbar
03:23:38 **<jSarek>** Tent: That just confuses people that they are in fact seperate.

03:23:40 **<fiolli>** i'm not opposed to an extra link on really long articles - i think i might help
03:23:41 **<Enochf>** Some articles need a text expansion to justify the pics
03:23:43 **<Ozzel>** I'd support linking once per section.
03:23:44 **<LucidFox>** I don't want to enforce it in either direction.
03:23:50 **<Ataru>** Enochf: Stay on topic
03:23:51 **<LucidFox>** Links should be reasonably sparse.
03:23:52 **<Imperialles>** Once per section is *far* too much.
03:23:53 **<Ozzel>** But only allowing once an article is downright silly.
03:23:56 **<Enochf>** Sowwy
03:23:59 **<Ataru>** Bah
03:24:02 **<The4dotelipsis1>** jSarek: The article should assert that they're the same.
03:24:03 **<Darth_Culator>** How about no more than once per paragraph? :-P
03:24:03 **<LucidFox>** One per screen, maybe.
03:24:05 **<The4dotelipsis1>** If written properly.
03:24:06 **<Ataru>** One per article is fine
03:24:07 **<Graestan>** per Ozzel
03:24:10 **<LucidFox>** But only as a guideline.
03:24:11 **<Ozzel>** Not require 1-per-sect, but allowing it if need be.
03:24:13 **<Grey-man>** Once per article
03:24:13 **<Imperialles>** "Screen" is subjective, LF.
03:24:18 **<LucidFox>** Not something to vigilantly enforce.
03:24:20 **<Enochf>** Uch. One time only.
03:24:25 **<fiolli>** If there is a major point being made involving an item that is not listed for a substancial time, relinking could be a benefit - I think it should be evaluated on a case-by-case;

03:24:28 **<LucidFox>** Imperialles> Per our agreed-on LCD.
03:24:28 **<The4dotelipsis1>** It wasn't on the last topic...
03:24:29 **<Havac>** Once per section is too much.
03:24:35 **<jSarek>** I say once per text of article, then again as needed in picture captions, appearances, sources, references, and so on.
03:24:35 **<Ataru>** Keep current policy
03:24:36 **<Graestan>** If piped, then once more in proper form?
03:24:37 **<Ozzel>** We shouldn't be enforcing 1-per-article, but many do.
03:24:41 **<Imperialles>** Consensus seems to be one time only.
03:24:42 **<Havac>** It should be case-by-case.
03:24:44 **<Enochf>** Per jSarek

03:24:45 **<Ataru>** Infoboxes and captions have separate links anyway
03:24:48 **<Ozzel>** No, it's not.
03:24:50 **<Havac>** A hard only-once rule is shit.
03:24:51 **<The4dotelipsis1>** And references.
03:24:52 **<Enochf>** Captions don't count
03:25:00 **<Ozzel>** What is the purpose of a link?
03:25:01 **<Ataru>** Right, captions and boxes don't count
03:25:03 **<Havac>** Ataru: those are being eliminated.
03:25:04 **<Ozzel>** To help people find info.
03:25:08 **<Ataru>** Heh
03:25:16 **<Graestan>** Refine the issue.
03:25:16 **<jSarek>** Ataru: Yes, but I'm not sure that's actually policy instead of practice.
03:25:21 **<The4dotelipsis1>** Ozzel: Where have you been for the last 80 minutes?
03:25:22 **<Ataru>** I say one link only
03:25:25 **<The4dotelipsis1>** We're not interested in helping people.
03:25:26 **<Darth_Culator>** intro | body | infobox | captions | quotes <- once per each
03:25:27 **<Havac>** Why>
03:25:29 **<The4dotelipsis1>** We're interested in being anal.
03:25:30 **<Ozzel>** One link to Anakin SKywalker at the beginning of Luke's doesn't help them when they get to the ANH section.
03:25:34 **<fiolli>** Wait . . . I agree with one time only as a guideline; there has to be wiggle-room for long articles, such as Lando Calrissian. I'm working on a copyedit, and there may be points later in the article where things could be relinked. It should be noted.
03:25:37 **<Havac>** Per Culator.
03:25:41 **<Ataru>** Per Culator
03:25:45 **<Ataru>** I can tolerate links in intro

03:27:10 **<Ataru>** In quote attributions, sure.
03:27:12 **<The4dotelipsis1>** You're reading the article, not the quotes.
03:27:12 **<Ataru>** Not in quotes
03:27:13 **<Ozzel>** I think underlinking is far worse than overlinking.

03:27:28 **<Lord_Oblivion>** I'm not even sure if we need links in image captions
03:27:30 **<Ozzel>** We want to help users find info.
03:27:34 **<fiolli>** I would rather overlink than leave a person searching a very long
    page trying to find a relatively minor item - especially if it was a piped link
03:27:35 **<LucidFox>** Per Ozzel.
03:27:36 **<Ozzel>** Not keep them from it.
03:27:41 **<Havac>** Underlinking is a far greater disservice to everyone involved than
    overlinking.
03:27:42 **<Ataru>** We have consensus I think
03:27:42 **<LucidFox>** Underlinking is worse.
03:27:49 **<Imperialles>** What's the consensus?
03:27:52 **<Graestan>** Okau, regarding piped links:
03:27:54 **<Ataru>** Culator's idea
03:27:59 **<Enochf>** fiolli: sounds reasonable, but I still say one link per article
03:28:00 **<Ataru>** I thought anyways . . .
03:28:03 **<JMAS>** I think liking in the attribution of the qyote is fine
03:28:05 **<Imperialles>** Culator's idea adopted, moving on.
03:28:06 **<Graestan>** Once piped, once more in proper form?
03:28:07 **<Darth_Culator>** We'll turn it into a guideline.
03:28:09 **<Ozzel>** No, because once in a biography is not enough

03:28:42 **<The4dotelipsis1>** Nope.

03:28:59 **<Ozzel>** I've noticed people tend to do this on new deaths.
03:29:05 **<Enochf>** Well, what about Boba Fett? Multiple deaths?
03:29:05 **<Havac>** Kill the death thing.
03:29:06 **<Ataru>** Infobox is sufficient, methinks
03:29:07 **<jSarek>** Refs are sufficient. That's the point of them.
03:29:08 **<Enochf>** Palpatine?
03:29:11 **<Darth_Culator>** Infobox.
03:29:14 **<Ozzel>** Yes, refs and infoboxes are enough.
03:29:15 **<SillyDan>** Besides, the "1st app" refers to OOU debut anyway
03:29:19 **<The4dotelipsis1>** No death thing.

03:32:12 **<Imperialles>** I told you, Ozzel. WProjects.
03:32:12 **<Ataru>** What issue?
03:32:25 **<Havac>** Original person to take it to FA should watch over it.
03:32:26 **<Darth_Culator>** Solution: New round of Inquisition.
03:32:27 **<LtNOWIS>** But even with the shortened main page time, there's still a long
    time on the queue.
03:32:28 **<Imperialles>** I say no need for a project. Simply limit the queue to two
    months into the future, and let the Inq decide what articles get featured. Also,
    abolish the two FA system.
03:32:28 **<Ataru>** FA Quality is pretty durn good if I may say so
