

## 20190922 **Island Dream**

Viktor Nonong Medrano

Sometime after midnight, I dreamt eerily about something like *The Island of Doctor Moreau* or *The Mysterious Island*. I was someone like a mad scientist in a fancy, **grey** 19th-century suit. Over a long wooden table, I was eating something like a fat, longish Asian steamed bun with a kind of **lavender** taro paste inside it.
