

20170514 Belief Systems

Viktor Nonong Medrano

Amongst belief systems, I favour Dào, Shintō, Hinduism, Buddhism, and Science. Amongst Christian belief systems, I personally have dealt with Roman Catholicism, Baptist, Pentecostal, Mormonism, and Jehovah's Witnesses, but I do not now prefer them, as they do not suit my personality; however, I am open to acquiring knowledge about where other people stand. I prefer an Eastern cosmology to a Western one. I opine that Amerindian, Inuit, Pacific Islander, Australian Aboriginal, and African cosmologies are similar to Eastern ones. I am not trying to be wishy-washy about spirituality and religion.
