

Races Interbreeding

My friend Frank the Dutch likes Filipino women. As Filipinos are more tolerant of Western ways, for Europeans, Filipinos make better spouses than other Asians. Many Asians disbelieve in race-mixing. Filipinos are different from Koreans, say, because we have a long history of racial blending.

Anthropologists know that Koreans and Japanese have some ancient infusions of Turkic-like peoples from Siberia. Also, some Chinese do. Mariner Europeans, such as Portuguese, anciently interbred with some coastal Japanese and Chinese.
