

The LAPD featured in the *Major Crimes Universe* (includes *The Closer* & *Major Crimes*) is fictional, although its organizational structure was originally based on the organization of the real LAPD from 2005 (the year *The Closer* first premiered). Regardless, it's presumed that the organization has evolved alongside its real life counterpart

With that in mind, do note that this chart is not an accurate representation of the organization of the real LAPD and includes many fictional/fictionalized components.
