Fun Fact! The Wind Fish's name, as odd as it is, is the same in Japan. 風の魚 (Kaze no Sakana, The Fish of Wind).

 + Yeah!

Interesting... what about the titles for all the 3D Zelda games

 + Yeah!

What if Wind Fish was really able to body slam enemies in Link's Awakening? That way, Link doesn't have to struggle in tough battles. I'm gonna let you know that that IS Marin's special attack in Hyrule Warriors (Legends), that Marin calling Wind Fish with her bell and have that fish

body slam enemies.

Robert: I can do you one better than that. Here's every Japanese Zelda game.

<https://miiverse.nintendo.net/posts/AYMHAAADAAB2V0fcyx7ynA>

Takuma: I don't know? He never awakens until Link has beaten all the nightmares. It's not like Link would ever need that attack.

So, speaking of Wind Fish and Marin, in Hyrule Warriors (Legends), there's a tutorial titled "Character Introduction: Marin". This is its description:

A strange island where a hero was washed out to at the sea... She's a Mabe Villige girl in "Link's Awakening", a legend which a hero awakened a god sleeping by the sacred egg from a nightmare and saved the world, world. ...

But is the world really saved? Koholint Island disappears after Wind Fish wakes up. It's more likely a hero who destroyed the world...! What do you think of this, Elzonire?

Obviously not, but they must have written it that way to avoid spoilers.
